Public Exhibition: Delivering the Message of Peace

Interactive exploration of the history of technology in the UN

There are many examples of technological milestones that have taken place within the UN more than 75 years.

This exhibition explains some of these highlights through both audiovisual narrative and artifacts from UN offices around the world.

The exhibition is organized by OICT, in partnership with DOS/FCAS and DGC.

Come to explore:

- Print maps and documents
- Audio/Visual
  Television and radio programing
- Telecommunication
  Satellite, Internet, social media and more
