We must commit ourselves to achieve the Sustainable Development Goals by 2030. The most dependable way to do it is to apply the methodology of social business, involve the creativity of youth and the power of fast changing technology. Let us innovate together for achieving the Sustainable Development Goals:

- Build a global eco-system to support social business, youth and technology for SDGs
- Promote cross-sector and generational partnerships for innovation and development.
- Build a global network to support youth on technical innovation and social business.

You will join the conversation with our exciting speakers including: H.E. Christophe ITIER, French High Commissioner for Social and Solidarity Economy and Social Innovation, President of the International SSE Pilot Group; H.E. Mr. Christian Braun, Ambassador and Permanent Representative of Luxembourg to the United Nations. Nobel Peace Laureate, UN SDG Advocate Professor Muhammad Yunus, Chairman of Advisory Board at European Blockchain Hub and Former State Secretary in the Office of the Prime Minister of the Republic of Slovenia Mr. Tadej Slapnik. And Panelists from many exciting organizations. Business Leaders, innovators, social entrepreneurs from all over the world.
