We present Jardines del Ayra, a new investment opportunity that promotes the development of a new-build residential development consisting of 183 subsidized homes with 1, 2 and 3 bedrooms, located in the strategic sector of Montecarmelo, in Alcalá de Guadaíra. The project has been conceived to guarantee quality of life, offering a garage and storage room in all units, as well as being integrated into an area that has a communal pool and well-kept garden areas. As an added value to the operation, the development includes the marketing of two plots of tertiary use adjacent to the residential area, increasing the potential for revaluation of the environment.

The development enjoys exceptional connectivity that ensures its commercial success. By private transport, it offers direct access to Seville through the A-92 motorway, a fundamental axis for the metropolitan area. In terms of public transport, the project benefits directly from the reactivation of the Alcalá Tramway, whose service is scheduled for spring 2026. This key infrastructure, with a stop very close to the residential area, will quickly connect residents with the Pablo de Olavide University metro station, fully integrating the project into Seville's sustainable mobility network.

Alcalá de Guadaíra has established itself as one of the most strategic municipalities with the highest quality of life in the metropolitan area of Seville. Historically known as "the baker" for its industrial tradition, today it is a powerful economic engine that is home to one of the largest industrial centres in Andalusia. Its privileged location, just 15 km from the capital, is combined with a unique natural environment starring the Riberas del Guadaíra, a Natural Monument that, together with its imposing Almohad Castle and the emblematic Dragon Bridge, offers an unparalleled green lung. This fusion of economic dynamism, excellent connections and rich historical heritage makes Alcalá a residential enclave of high demand, ideal for those looking for the tranquility of a city with its own identity without giving up the immediate proximity to Seville.

STIPULATIONS

0. PURPOSE

The purpose of this contract is to regulate: (i) the terms and conditions applicable to the Investment granted by the Investor through the Platform in favour of the SPV Promoter; (ii) the relations between the Parties; and (iii) the principles of action of the SPV Promoter in relation to the Project.

1. PRE-CONTRACTUAL COOLING-OFF PERIOD

As indicated in Article 22 of Regulation (EU) 2020/1503, the Investor, if considered as a non-professional investor, will have a period of four calendar days, counting from the moment of the investment offer or the expression of interest, on his part, in this Project. during which it may revoke its investment offer or expression of interest in the participatory financing offer at any time, without the need to justify its decision and without incurring any penalty.

In any case, the Platform reserves the right to select at its discretion the investors with whom to carry out the Project or to complete the Investment Objective (as this term is defined below) with new investors other than the Investor.

2. COMMITTED CONTRIBUTION

The Platform will publish on its website the total and aggregate monetary amount necessary for the correct development and execution of the Project (the "**Financing Objective**"), in order to be publicized among potential investors. For the purposes of the Contract, the Investor's Committed Contribution shall be understood as the specific amount that the Investor authorises and commits, through the Platform, to finance the Project, thereby contributing to achieving the Financing Objective.

The Investor, by signing the Contract, undertakes, subject to the Condition Precedent described in clause 18, to deliver funds of a monetary nature as share capital to the SPV Promoter, which accepts them. Such contribution will be binding on the Investor (the "**Committed Contribution**") as established in **Annex I (the "Specific Conditions")**, in order to subscribe the number of shares in the Vehicle Company (which in turn takes a stake in the SPV Promoter) that correspond proportionally to it over the Financing Objective. All the shares to be subscribed will be of the same series and class, and, therefore, will have the same rights attributed.

Once the Financing Objective has been reached within the period established for the Project, the Investor will be informed that their Committed Contribution will be transferred to an account owned by the Vehicle Company. To this end, the Investor, by adhering to this Agreement, grants through the Platform, an irrevocable mandate so that, once the Financing Objective is reached, the following actions are executed:

- (i) the corresponding transfer in favour of the SPV Promotora as a share capital increase.
- (ii) the formalisation, in the name and on behalf of the Investor, of the aforementioned share capital increase, including the subscription and disbursement of the number of shares that correspond to them in proportion to their Committed Contribution to the Financing Objective; and
- (iii) the execution of as many public and private documents as may be necessary, convenient or appropriate for the purposes of the correct granting, execution and documentation of the capital increase, as well as the corresponding shareholders' agreement referred to above. In relation to this, the Investor undertakes to provide the documentation that may be required by the Platform for this purpose.

The Financing Objective will be provided to the SPV Promoter and will be used exclusively to increase the capital of the SPV Promotora for the financing of the Project, as well as to meet the expenses provided for in this Agreement, in accordance with the particularities described in the Project published by the Platform on its website.

The share capital of the SPV Promotora will be participated, in addition to the Vehicle Company, by third parties outside the Platform (the "**Co-investors**"), who will contribute funds of a monetary nature and/or non-monetary assets, such as plots, that facilitate the development of the Project. In the event that the Co-Investors make non-monetary contributions, the valuation of the same must be supported by third-party reports.

In order to regulate the relations between the Co-Investors and the Investors, a shareholders' agreement will be signed through which the following issues are regulated, among other issues, the regime of which in any case must be in accordance with the provisions of the Agreement:

- Debt policy of the SPV Promotora
- Regime of reinforced majorities.

5. PROJECT DEVELOPMENT AND EXECUTION AND EXPENDITURE POLICY

Under the Financing Objective, the Investor authorises the SPV Promotora to proceed with the acquisition of the Property, as well as the payments necessary for the construction and marketing of the Development for the price and with the limitations described on the website. If for any reason it is not possible to acquire the Property in accordance with the foreseen particularities, the SPV Promoter will submit the authorisation of the new conditions to the Investors through the website. The possibility for the SPV Promotora to subscribe to debt for the purpose of financing the development of the Project is expressly recognized.

Likewise, the following expenses will be borne by the SPV Promotora under the Financing Objective: (i) capital increase expenses of the SPV Promotora; (ii) expenses that the SPV Promotora may incur in the development of the Promotion, including, but not limited to: technical and professional fees, work certifications, acquisition of materials, health and safety projects, supplies, insurance, fees and taxes; etc.; (iii) expenses related to the services necessary for the SPV Promotora to comply with its legal, accounting, tax and census obligations related to the Promotion; (iv) expenses and taxes derived from the marketing of the Promotion; (v) administration fees related to the Promotion; (vi) commissions paid to corresponding intermediaries for the acquisition and/or transfer of the real estate units that make up the Development; (vii) the Platform's commission in accordance with what is published on the Platform's website; (viii) financial expenses and amortization of third-party debt taken for the development of the Project and (ix) in general, any other expense necessary for the implementation of the Project, provided that it is valued at market conditions.

Expenses and taxes arising from the transfer of shares of the SPV Promoter that may eventually be agreed between Investors, as partners, and users registered on the Platform's website are excluded, which will be paid by the Parties as agreed between the transferor and the acquirer.

6. DIVESTMENT

The Parties acknowledge that the Investor has made its Committed Contribution with the commitment that the Promoter SPV will proceed with the sale of the Development subject to the Project (the "**Divestment**") within a limited time horizon. The Investor authorises the SPV Promotora to sell the real estate units that make up the Development at any time during its development, provided that the conditions of sale are in accordance with the provisions of the Project and the remaining assets are used as remuneration for the Investment under the terms expressed in this Agreement.

In the event that, as a result of the situation of the real estate market, at the time of the Divestment the sale price of any real estate unit that makes up the Development is lower than that foreseen in the Project, the SPV Promotora will obtain through the Platform the authorisation of the Investors for the new conditions of disposal. The authorisation shall be deemed to have been granted in accordance with the provisions of clause 21 ("**General Provisions**") below.

7. DISTRIBUTIONS

The management of the SPV Promoter's treasury will be governed by the principle of maximum distribution to Investors subject to a minimum operating cash flow necessary for the development of the Project in the amount established in the Specific Conditions.

The entire return obtained from the Divestment, net of the corresponding operating expenses, insurance and taxes, will be distributed to the Investors in accordance with the legal formula that is considered most efficient at any given time. Distributions may be made in the form of dividend distributions, share capital reductions or liquidation quotas (hereinafter, the "**Distributions**").

Distributions will be made among Investors in proportion to their share capital and in accordance with the information published by the Platform.

The Distributions will be paid into the payment account held by the Vehicle Company in the payment institution with which the Platform operates and the taxes that are legally required to be withheld will be deducted from them.

If necessary, the Investor undertakes to adopt or to have adopted the corresponding agreements to proceed in accordance with the legislation applicable to the Distributions. In-kind distributions will not be possible.

Once the dissolution of the SPV Promotora has been agreed, it must be liquidated in the shortest possible period of time. In this sense, the Investors, in their capacity as partners, undertake to carry out all the acts that are necessary, precise and convenient for this purpose.

The Investor acknowledges that extraordinary circumstances not foreseen in the Project (but not limited to: falling prices in the real estate market, decreased demand, increased construction costs, delay in the administrative deadlines for obtaining permits or licenses) may lead to the Distributions to be obtained in the future being delayed or less than its Committed Contribution, assuming as participants in the share capital the risk and venture of the Investment.

8. PRINCIPLES OF ACTION OF THE PROMOTING SPV

The SPV Promotora undertakes to ensure that its activity is in accordance with the provisions of the Project published on the Platform's website, and in particular, that the Financing Objective is used exclusively for the purpose envisaged in the Project.

For these purposes, a substantial change in the information will be understood as one that, without having an impact on the profitability of the Project, provided that it does not harm its viability or imply an alteration to the detriment of the Investor, affects the control structure of the companies involved in it, even when such modification involves a change in the Financing Objective communicated to the Investor.

To this end, the Platform reserves the right to make on behalf of the Investor the structural changes in the Project that are necessary in order to optimise it, and must inform of any change in the space created for each Investor of the Project on the Platform's website, providing a Project monitoring document explaining how the operation will finally be structured.

ANNEX I

SPECIAL CONDITIONS

We present **Jardines del Ayra**, a new investment opportunity that promotes the development of a new-build residential development consisting of **183 subsidized homes with** 1, 2 and 3 bedrooms, located in the strategic sector of Montecarmelo, in Alcalá de Guadaíra. The project has been conceived to guarantee quality of life, offering a garage and storage room in all units, as well as being integrated into an area that has a communal pool and well-kept garden areas. As an added value to the operation, the development includes the marketing of **two plots of tertiary use** adjacent to the residential area, increasing the potential for revaluation of the environment.

The development enjoys exceptional connectivity that ensures its commercial success. By private transport, it offers direct access to Seville through the **A-92** motorway, a fundamental axis for the metropolitan area. In terms of public transport, the project benefits directly from the reactivation of the **Alcalá Tramway**, whose service is scheduled for **spring 2026**. This key infrastructure, with a stop very close to the residential area, will quickly connect residents with the Pablo de Olavide University metro station, fully integrating the project into Seville's sustainable mobility network.

Alcalá de Guadaíra has established itself as one of the most strategic municipalities with the highest quality of life in the metropolitan area of Seville. Historically known as "the baker" for its industrial tradition, today it is a powerful economic engine that is home to one of the largest industrial centres in Andalusia. Its privileged location, just 15 km from the capital, is combined with a unique natural environment starring the **Riberas del Guadaíra**, a Natural Monument that, together with its imposing Almohad Castle and the emblematic Dragon Bridge, offers an unparalleled green lung. This fusion of economic dynamism, excellent connections and rich historical heritage makes Alcalá a residential enclave of high demand, ideal for those looking for the tranquility of a city with its own identity without giving up the immediate proximity to Seville.

The **Jardines del Ayra** project, located in the expansion area of **Alcalá de Guadaíra (Seville)**, marks a milestone in the collaboration between the developer and the platform, becoming the third jointly financed operation. This alliance builds on the success of its predecessors: the *Alcaidesa Homes project* in Campo de Gibraltar (Cádiz) and the *Dante Building*, a development of 260 homes in the sought-after area of Entrenúcleos (Dos Hermanas), both of which rigorously comply with their business plans and consolidate trust between the two entities.

Currently, the urban strategy focuses on the optimization of the asset through a **Detailed Study**, managed by CARALCA in direct collaboration with the City Council of Alcalá de Guadaíra, to transform the use of the plot from free housing to protected housing. This modification not only responds to a high market demand, but also allows **for an increase in utilization by 20%**, increasing the value of the project. The final approval of the Detailed Study, scheduled for the coming weeks, has been established as a *Precedent Condition* for the entry of investors. Once this milestone has been passed, the Building Permit (estimated at 4-6 months) will be requested, planning the start of construction for the **fourth quarter of 2026**, in line with the necessary commercial pace.

Although the work has not yet been tendered, the manager brings solid experience in this type of asset. As a reference for success and mitigation of execution risk, the precedent of the *Dante Building* stands out, whose construction was awarded to **Grupo San José** and is currently progressing without deviations in costs or deadlines.

On the financial front, preliminary discussions have already begun with several top-tier banks. Given the type of product (subsidized housing) and CARALCA's credit history, a high viability is expected in obtaining the developer loan. Finally, the **commercialization**

will be launched next year, a strategy designed to accumulate the level of pre-sales required by the bank before the start of the works at the end of 2026.
