The Contrueces Residential Project proposes the contribution of capital for the development of a development of 132 homes. The development combines two types: 112 free-form homes and 20 homes for Subsidized Price Housing (VPC), distributed in 4 free-standing housing buildings and 1 regional protection building. The homes will have common areas that include green areas, a swimming pool and sports courts.

As for its location, the land is located in the Contrueces neighbourhood, a neighbourhood on the outskirts of Gijón with a mainly residential character. It is an area close to all services: schools, health center, supermarkets and leisure options less than 5 minutes walk. Communication is very good, being located 10 minutes by car from the centre of Gijón, with nearby bus stops, access to the motorway and about 10 minutes by car from the Gijón-Jovellanos train station.

Gijón functions as the economic engine of Asturias, concentrating a large part of the region's business activity thanks to its strong industrial and service dynamism. However, the city's real estate market faces a structural challenge: the pressing lack of supply for first homes. Despite having a solid and constant demand, the shortage of product is evident, as new-build housing barely represents 13% of annual operations. This pushes buyers to turn to a market almost entirely dominated by second-hand, which absorbs between 85% and 92% of transactions. This marked lack of replacement of the real estate stock makes new residential developments, such as Contrueces, highly necessary and demanded solutions to meet the real need for habitual housing. **Part B: Main characteristics of the crowdfunding process and conditions for raising capital**

### 2. COMMITTED CONTRIBUTION

The Platform will publish on its website the total and aggregate monetary amount necessary for the correct development and execution of the Project (the "**Financing Objective**"), in order to be publicized among potential investors. For the purposes of the Contract, the Investor's Committed Contribution shall be understood as the specific amount that the Investor authorises and commits, through the Platform, to finance the Project, thereby contributing to achieving the Financing Objective.

- Regime of reinforced majorities.

#### **5. PROJECT DEVELOPMENT AND EXECUTION AND EXPENDITURE POLICY**

Under the Financing Objective, the Investor authorizes Propco to proceed with the acquisition of the Property, as well as the payments necessary for the construction and marketing of the Development for the price and with the limitations described on the website. If for any reason it is not possible to acquire the Property in accordance with the particularities foreseen, Propco will submit to the Investors the authorization of the new conditions through the website. The possibility of Propco subscribing to debt for the purpose of financing the development of the Project is expressly recognized.

Likewise, the following expenses will be borne by Propco under the Financing Objective: (i) capital increase expenses of Propco; (ii) expenses that Propco may incur in the development of the Promotion, including, but not limited to: technical and professional fees, work certifications, acquisition of materials, health and safety projects, supplies, insurance, fees and taxes; etc.; (iii) expenses related to the services necessary for Propco to comply with its legal, accounting, tax and census obligations related to the Promotion; (iv) expenses and taxes derived from the marketing of the Promotion; (v) administration fees related to the Promotion; (vi) commissions paid to corresponding intermediaries for the acquisition and/or transfer of the real estate units that make up the Development; (vii) the Platform's commission in accordance with what is published on the Platform's website; (viii) financial expenses and amortization of third-party debt taken for the development of the Project and (ix) in general, any other expense necessary for the implementation of the Project, provided that it is valued at market conditions.

Expenses and taxes arising from the transfer of shares in Propco that may eventually be agreed between Investors, as partners, and users registered on the Platform's website are excluded, which will be paid by the Parties as agreed between the transferor and the acquirer.

#### **6. DIVESTMENT**

The Parties acknowledge that the Investor has made its Committed Contribution with the commitment that Propco will proceed with the sale of the Development subject to the Project (the "**Divestment**") within a limited time horizon. The Investor authorizes Propco to sell the real estate units that make up the Development at any time during its development, provided that the conditions of sale are in accordance with the provisions of the Project and the remaining assets are used as remuneration for the Investment under the terms expressed in this Agreement.

In the event that, as a result of the situation of the real estate market, at the time of the Divestment the sale price of any real estate unit that makes up the Development is lower than that foreseen in the Project, Propco will obtain through the Platform the authorization of the Investors for the new conditions of disposal. The

authorisation shall be deemed to have been granted in accordance with the provisions of clause 19 ("**General Provisions**") below.

## **7. DISTRIBUTIONS**

The management of Propco's treasury will be governed by the principle of maximum distribution to Investors subject to a minimum operating cash flow necessary for the development of the Project in the amount established in the Specific Conditions.

The entire return obtained from the Divestment, net of the corresponding operating expenses, insurance and taxes, will be distributed to the Investors in accordance with the legal formula that is considered most efficient at any given time. Distributions may be made in the form of dividend distributions, share capital reductions or liquidation quotas (hereinafter, the "**Distributions**").

Distributions will be made among Investors in proportion to their share capital and in accordance with the information published by the Platform.

The Distributions will be paid into the payment account held by the Vehicle Company in the payment institution with which the Platform operates and the taxes that are legally required to be withheld will be deducted from them.

If necessary, the Investor undertakes to adopt or to have adopted the corresponding agreements to proceed in accordance with the legislation applicable to the Distributions. In-kind distributions will not be possible.

Once the dissolution of Propco has been agreed, it must be liquidated in the shortest possible period of time. In this sense, the Investors, in their capacity as partners, undertake to carry out all the acts that are necessary, precise and convenient for this purpose.

The Investor acknowledges that extraordinary circumstances not foreseen in the Project (but not limited to: falling prices in the real estate market, decreased demand, increased construction costs, delay in the administrative deadlines for obtaining permits or licenses) may lead to the Distributions to be obtained in the future being delayed or less than its Committed Contribution, assuming as participants in the share capital the risk and venture of the Investment.

## **8. PRINCIPLES OF ACTION OF THE PROPCO**

## ANNEX I SPECIAL CONDITIONS

The Contrueces Residential Project proposes the contribution of capital for the development of a development of 132 homes. The development combines two types: 112 free-form homes and 20 homes for Subsidized Housing (VPC), distributed in 4 free-standing housing buildings and 1 regional protection building. The homes will have common areas that include green areas, a swimming pool and sports courts.

As for its location, the land is located in the Contrueces neighbourhood, a neighbourhood on the outskirts of Gijón with a mainly residential character. It is an area close to all services: schools, health center, supermarkets and leisure options less than 5 minutes walk. Communication is very good, being located 10 minutes by car from the centre of Gijón, with nearby bus stops, access to the motorway and about 10 minutes by car from the Gijón-Jovellanos train station.

Gijón functions as the economic engine of Asturias, concentrating a large part of the region's business activity thanks to its strong industrial and service dynamism. However, the city's real estate market faces a structural challenge: **the pressing lack of supply for first homes**. Despite having a solid and constant demand, the shortage of product is evident, as new-build housing barely represents 13% of annual operations. This pushes buyers to turn to a market almost entirely dominated by second-hand, which absorbs between 85% and 92% of transactions. This marked lack of replacement of the real estate stock makes new residential developments, such as Contrueces, highly necessary and demanded solutions to meet the real need for habitual housing.

Currently, the acquisition of the asset is linked to the final approval of the Detailed Study, scheduled for the end of February 2026. For its part, the urbanization project is already completed, and its immediate approval is estimated while the basic project is completed to be able to process the building license by June 2026. For the execution, it has the guarantee of Grupo Tecniobras, which with its trajectory of more than 20 years in the northern area, mitigates construction risks and ensures compliance with costs.

On the financial and commercial level, the developer financing already has the confirmed interest of Caja Rural de Asturias for the granting of the mortgage loan, covering approximately 19 million euros. For its part, marketing will begin in the first month and will be supported by a consolidated network of agents and the successful sales experience of the developer in the same area with the Santa Bárbara development.

The project has an equity financial structure, which consists of the alliance with the developer for the development of a residential development of 132 homes in Contrueces, Gijón. The contributions of Urbanitae's investors will be delivered to the project's vehicle company, called EMERITA OPPORTUNITIES 4, S.L. The management model guarantees a total alignment of interests since the developer will invest €495,000 (15% of the total) together with the €2,475,000 (75%) contributed by Urbanitae's investors. The structure is completed with an injection of €330,000 (10%) by additional partners, reaching a total of €3,300,000 of capital contributed.
