#### **5. DIVESTMENT**

The Parties acknowledge that the Investor has made its Committed Contribution with the commitment that the Promoter SPV will proceed with the sale of the Development subject to the Project (the "**Divestment**") within a limited time horizon. The Investor authorises the SPV Developer to sell the real estate units that make up the Development at any time during its development, provided that the conditions of sale are in accordance with the provisions of the Project and the remaining assets are used as remuneration for the Investment under the terms expressed in this Agreement.

Distributions may be made in the form of dividend distributions, share capital reductions or liquidation quotas (hereinafter, the "**Distributions**").

If necessary, the Investor undertakes to adopt or to have adopted the corresponding agreements to proceed in accordance with the legislation applicable to the Distributions. In-kind distributions will not be possible.

Once the dissolution of the SPV Developer has been agreed, it must be liquidated in the shortest possible period of time. In this sense, the Investors, in their capacity as partners, undertake to carry out all the acts that are necessary, precise and convenient for this purpose.

The Investor acknowledges that extraordinary circumstances not foreseen in the Project (but not limited to: falling prices in the real estate market, decreased demand, increased construction costs, delay in the administrative deadlines for obtaining permits or licenses) may lead to the Distributions to be obtained in the future being delayed or less than its Committed Contribution, assuming as participants in the share capital the risk and venture of the Investment.

## ANNEX I

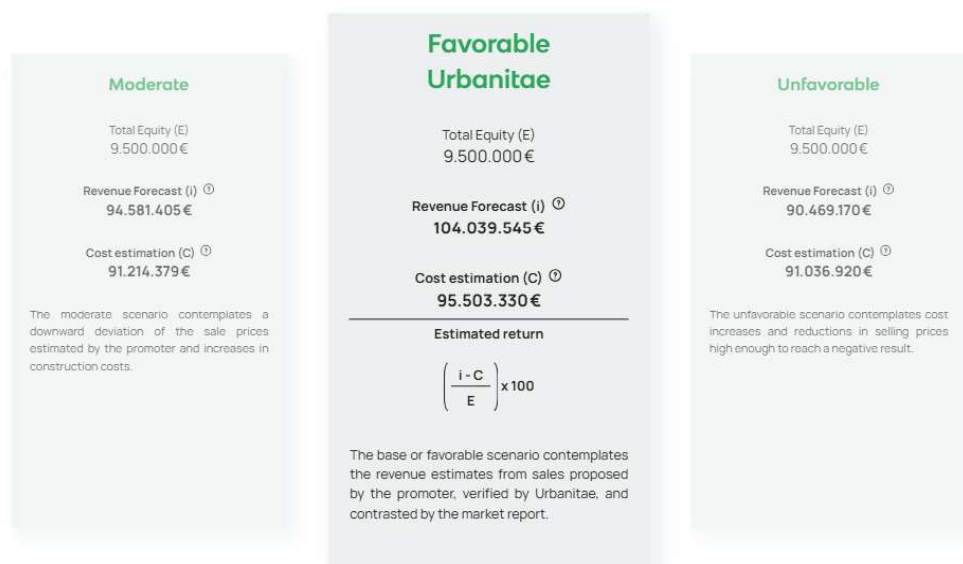

We present a new real estate development project consisting of the development of 131 semi-detached single-family homes integrated into the La Sella golf course, in Sector P-1 "La Sella" (Partida Alquería de Ferrando), municipality of Dénia, Alicante. The homes are designed taking advantage of the sports infrastructures of the golf resort itself, combining private spaces with common areas of the complex, including the golf course. Marketing began in February 2026, with 21 units already reserved, around 17% of the total. The financing of the work is structured through senior financing committed by Maslow Capital.

As for its location, the land is located in the municipality of Dénia, within the surroundings of La Sella Golf, close to the CV-735 and with good connectivity to the AP-7. The asset is located in a privileged environment in the interior of the Marina Alta, a short drive from the town of Dénia and its coastline, and close to green areas, hiking and cycling routes, as well as services and facilities in nearby towns, with good road accessibility to both the nearby municipalities and the airports of Alicante and Valencia. Dénia presents a growing demographic evolution in recent years, exceeding 50,000 inhabitants, with a consolidated residential base and a strong weight of foreign population, around 32-33% of the total, mainly from Colombia, followed by the United Kingdom, Germany and Ukraine. The municipality is among the towns with the highest per capita income within the Marina Alta, with an economy based mainly on tourism, the port and local gastronomy.

The project has a capital gains strategy, which consists of the alliance with the developer for the development of an integrated residential development in La Sella Golf, in Dénia, Alicante.

The contributions of Urbanitae's investors will be delivered to the developer via a capital increase to the vehicle company that will bring together all the contributions of Urbanitae's investors in the project. This company will subsequently increase capital in the company promoting the project.

The management model guarantees a total alignment of interests since the developer and partners will invest their own capital (€2,150,000) together with the preferred equity contributed by Urbanitae's investors (€1,500,000), as well as additional investors (€5,850,000), on a total equity of the project of €9,500,000.

(1) AJD costs and opening fees added to the loan principal

(2) Estimated revenues defined by the developer from the sale of the completed project. In the favorable scenario, prices have been validated against the market report (see market report).

(3) Estimation of the economic resources required to complete the project development. Includes the estimated cost derived from the payment of Corporate Tax, the promote and payments against sales

(4) Own funds contributed by all partners to the project
