10.1. Loan

The Committed Contribution intended for the granting of the Loan in favor of the SPV will be governed by the terms and conditions established in this Agreement and in the Specific Conditions that are attached to this document as **Annex I**.

The Loan granted by the Investor is in the nature of a **financing product, the return of which** depends exclusively on the ability of the SPV, in its capacity as borrower, to meet its obligation to repay the interest accrued and principal of the Loan in a timely manner.

For information purposes only, it is expressly stated that the granting of the Loan by the Investor entails the assumption of a risk of (i) total or partial loss of the Committed Contribution; and (ii) failure to obtain the expected monetary return.

The Investor acknowledges that extraordinary circumstances not foreseen in the Project (but not limited to: falling prices in the real estate market, decrease in demand, increase in construction costs, delay in the administrative deadlines for obtaining permits or licenses, etc.) may lead to the monetary return to be obtained in the future being delayed or lower than its Committed Contribution, assuming in its capacity as lender the risk and risk of the execution of the Project.

The granting of the Loan will be formalized with the SPV by the Investor, represented by the Platform in accordance with the irrevocable mandate granted in Stipulation 2 above, in a private document.

10.2. Destination and purpose of the Loan

The SPV undertakes to allocate the funds received from the Loan solely and exclusively as indicated in this Agreement and, in particular, in accordance with the provisions of Stipulation 4 above.

The Loan shall be deemed to have been granted at the time of making the Loans available to the SPV once the Condition Precedent has been fulfilled, and the SPV shall therefore be obliged to reimburse the amounts due as principal, to pay any interest, commissions, taxes and expenses accrued, as well as to comply with the other commitments for which it is responsible in accordance with the terms and conditions set forth in this Agreement.

The SPV undertakes to adopt, within its corresponding corporate bodies, and as soon as possible after the granting of the Loans in its favour, as many decisions and agreements as may be relevant to comply with the Financing Objective.

10.3. Accrual of interest. Interest Period.

The SPV undertakes to pay interest on the Loan in favour of the Investor at the interest rate provided for in the Specific Conditions.

The principal of the Loan pending repayment at any given time will accrue interest on a daily basis in favour of the Investor at the corresponding interest rate set out in the Specific Conditions.

Interest will be understood to accrue on the basis of a year of three hundred and sixty (360) days and will be calculated by the days effectively elapsed in the Interest Period – as it is defined later – (at the end of which the initial day of the Interest Period will be understood, in any case, as effectively elapsed and the final day as not effectively elapsed).

The duration of the Interest Period will coincide with the duration of the Loan, as specified in the Specific Conditions, and therefore there will be a single interest or settlement period, which will therefore begin on the date on which the Loan must be understood to have been granted in accordance with the provisions of Stipulation 10.2 above.

The interest corresponding to the single Interest Period will be due on the maturity date of the same, coinciding with the maturity of the Loan and will be paid within a maximum period of ten days from its maturity. The Platform will carry out the distribution of the amounts paid by the SPV for the Loan, paying the Investor the part that corresponds proportionally to it, net of tax withholdings if legally applicable.

10.4. Most Investors

The decisions that correspond to the Investors under the Loan will be adopted, unless otherwise expressly provided therein, by the Majority of the Investors, and any decision so adopted will be binding on each and every one of them.

"Majority of Investors" shall be understood to mean all the URBANITAE Investors whose participation in the Loan Amount pending repayment or repayment represents at any time more than fifty percent (50%) of the same.

For the above purposes, the Platform will inform the Investors of the decisions to be submitted for their consideration, which will be understood to be accepted by each Investor if they do not express their opposition in writing within 15 calendar days. Any decision made on the basis of the Loan

to Investors, shall be deemed to require the agreement of a Majority of Investors, unless otherwise indicated.

For information, the declaration of early maturity of the Loan, or the execution of the guarantee(s) or the novation of the Loan shall be subject to the decision of the Majority of the Investors.

10.5. Mandatory ordinary depreciation

The SPV shall fully repay the Loan and repay all amounts due to the Investor under this Agreement upon the maturity of the Loan indicated in the Specific Conditions.

10.6. Voluntary early repayment

The SPV may repay the total amount of the Loan in advance, regardless of whether or not it coincides with the end of the Interest Period and prior notice to the Platform of at least twenty (20) calendar days. Early repayment will include, together with the main object of repayment, all the interest that has accrued up to the date of early repayment, which, if repaid before month 18, must in any case include the amount of interest accrued in that period of time. The SPV will not pay any commission for early repayment.

10.7. Common Rules

The SPV's obligation to make payments to the Investor will be considered satisfied when the SPV has sufficient funds to cover its payment obligation in the virtual account that the SPV has on the Platform, and effectively does so.

The SPV is obliged to make and settle the withholdings on capital income that the current tax legislation requires it to make at any given time.

The payments derived from the Loan, both for principal, interest and expenses, will be made (i) either on the same

day that the Loan matures or the immediately following business day in the event that it is a non-business day, or in accordance with the provisions of this Agreement for the early repayment of the same, or (ii) at the time they are due from the Investor in accordance with the provisions of this Agreement, by debiting these amounts into the corresponding account in the name of the Platform, without the need for prior payment order. The SPV undertakes to have sufficient funds in this account to meet the aforementioned payments.

The amounts received by the Investor as payment will be charged firstly to default interest, secondly, to ordinary interest, thirdly, to the reimbursement of expenses and taxes, and to the extent that it is exceeded, to the outstanding principal.

10.8. Late payment interest

Any delays that may occur, both in the payment of the principal and in the payment of the interest and expenses payable by the SPV, will accrue daily in favor of the Investors, the default interest indicated in the Particular Conditions, without the need for notice, from the day following the maturity or enforceability of the unpaid amount and until its full payment.

Late payment interest will be paid in one lump sum, together with the payment of the interest due or the principal of the Loan, as the case may be, or, failing that, on the date of maturity of the Loan or declaration of the early maturity of the Loan.

10.9. Joint and independent nature of each Investor's Loan

The contractual position assumed by each Investor vis-à-vis the SPV in relation to its respective Loan is of a joint nature, and therefore the rights and obligations of the Investor are independent with respect to the rest of the Investors, unless otherwise expressly established in this Agreement and subject, where appropriate, to the majority regime established in the Loan Agreement. binding the decision that may be adopted to all the Investors.

To this end, the Platform may refer the legal claim to the unpaid debt collection agency with which it reaches an agreement for the claim of the payments due linked to its Loan.

Once the Platform notifies the Collateral Agent of the adoption of an agreement by the Investors, the Collateral Agent must refrain from carrying out acts that may contravene such agreement, and must carry out any acts necessary, where appropriate, to allow or promote its implementation.

The agreement adopted by the Investors and communicated by the Platform to the Collateral Agent shall be considered binding in all its effects on the Collateral Agent, as well as on all Investors.

7. Application of proceeds from enforcement of Guarantees

All amounts received by the Guarantee Agent as a result of the execution of the Guarantees and once the tax obligations that may result from their application have been covered, will be applied in accordance with the priority of payments established below:

- (a) payment of the Guarantee Agent's fees;
- (b) payment of the fees of notaries, lawyers, solicitors, developers and other expenses that may have accrued on the occasion of the execution of the Guarantees, if applicable; default interest on the Loan;
- (c) ordinary interest on the Loan; y

(d) main pending payment by the SPV.

Once all the aforementioned taxes and payments have been covered, any resulting excess will be returned to the SPV.

8. No waiver by the Warranty Agent

The Collateral Agent may not waive its position as Collateral agent granted and accepted by virtue of this Agreement, nor may it waive its status as a mortgagee in the Collateral until the complete cancellation or completion of the enforcement proceeding thereof.

9. Warranty Agent Fees. Expenses

For the performance of their duties, the Collateral Agent will receive the fees indicated in the Framework Agreement for the provision of services signed between the Platform and the Collateral Agent.

The Guarantee Agent will not be responsible for any type of expense or tax that may be caused in the performance of its functions, including, but not limited to: notary and developer fees, lawyers and solicitors, land registries, stamp duty, postage expenses, courier and burofax, travel expenses for attendance at signings, registrations, hotels outside the province of residence of the Guarantee Agent, etc., all of which must be reimbursed.

For these purposes, the SPV will constitute in favour of the Guarantee Agent a provision of funds that will be calculated in each case according to the characteristics and amount of the Guarantees, and which will be used to satisfy the expenses and taxes mentioned in the previous paragraph. Upon termination of the Contract, once the Guarantees have been cancelled, the Guarantee Agent will return to the SPV through the Platform the remainder of said provision of funds once the aforementioned expenses have been paid.

Both the remuneration and the provision of funds referred to in the previous paragraphs will be paid to the Guarantee Agent prior to the constitution of the Guarantees and will be applied, respectively, to the payment of the fees to be received by the Guarantee Agent throughout the life of the Loan and to meet the costs that may be incurred as a result of the constitution of the Guarantees until their cancellation. modification or execution, if applicable. In the event that once the provision of funds has been applied, amounts to be paid are subtracted, these will be paid by the SPV to the Collateral Agent at the request of the Platform.

10. Duration of the Mandate Contract

The Contract shall enter into force on the date of its execution by the Parties.

The duration of the Agreement will be extended, either (i) until the full repayment of the Loan by the SPV, in timely compliance with the obligations assumed by it under the Loan Agreement, and the consequent cancellation of the Guarantees; or (ii) in the event of non-compliance with the Secured Obligations, until the completion of the Guarantee enforcement procedure in the event that the Collateral Agent is instructed to proceed with their enforcement.

For the appropriate purposes, it is hereby stated that the termination of the enforcement procedure of one of the two Guarantees will not imply the termination of this Agreement, which will remain in force, as long as one of the Guarantees, or the enforcement procedure thereof, remains in force.

11. Cases of resolution

This Agreement shall be terminated early, in addition to the cases specifically regulated in other Clauses thereof, in the following cases:

- (i) At any time, by mutual written agreement between the Parties; By the denunciation made in writing by either Party based on a serious breach of any of the obligations assumed by the other Party under this Agreement, without prejudice to the right of the injured Party to opt for the continuation of the Contract and to demand from the other Party the full performance of its obligations, with reparation, in either case, for the damage caused by such non-compliance when it is due to fault or gross negligence. In such a case, the non-compliant Party shall have a period of ten (10) calendar days to remedy such situation. If, after this period, in the opinion of the affected Party, the non-compliant Party has not put an end to its conduct or remedied the cause of its non-compliance, the affected Party may terminate this Agreement with immediate effect, and the affected Party shall also be open to the exercise of any of the legally established actions; y

13. Confidentiality

Except as required by law or a judicial authority, neither Party may, at any time, disclose, communicate or disclose to any person or use any information relating to the Agreement or the Warranties (including the subject matter of such agreements) where such information is not generally known to the public at the time of its disclosure to the recipient (the "**Confidential Information**").

All of the foregoing, except in the event that one of the Parties is obliged to disclose any Confidential Information, by requirement of any applicable law or court order, as well as – specifically in the case of the Guarantee Agent – when in execution of this Agreement, it should disclose any Confidential Information.

Except in the cases indicated above, the Confidential Information may not be made known to third parties.

The duty of confidentiality provided for in this clause shall apply, even in the event of termination of the Contract, for a period of two (2) years from the date of effect of termination.

14. Protection of Personal Data

In accordance with the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data ("**GDPR**") and its concordant regulations, the parties to this Agreement on behalf of each of the Parties, By signing the Contract, they expressly give their consent for the purposes of their Personal Data being processed by the Parties as Data Controllers, in order to be used for the correct development and execution of the relationships that materialize with cause or origin in this Contract, as well as for the management and filing of the documentation related to it.

15. Assignment

The Principals may assign, transfer, substitute or subrogate, in whole or in part, the rights and obligations contracted in this Agreement. Notwithstanding the foregoing, the validity of the assignment will be subject to the registration of the new Investor on the Platform and its communication to the Guarantee Agent, provided that it promotes the appropriate modifications in the documents, both public and private, that have been granted in the exercise of its obligations contracted in this Agreement.

The Guarantee Agent, however, may not assign, transfer, substitute or subrogate, in whole or in part, the rights and obligations contracted in this Agreement without the express written consent of the Platform.

16. Miscellaneous

16.1. Modifications

The Platform will inform the other Parties of any modifications to the Contract that may occur as a result of changes in the applicable regulations or for any other objective reason or that are otherwise considered appropriate or convenient by the Platform.

Such modifications will be understood to be accepted if the Parties do not express their opposition in writing within 15 calendar days from their notification.

It is also indicated that the agreement adopted by the majority of the Investors in the manner provided for in clause 6 above, will bind all of them.

16.2. Independent nature of the clauses

In the event that any provision of this Agreement is held to be void, illegal or unenforceable in any respect, the validity, legality or enforceability of the remaining provisions of this Agreement shall in no way be affected or impaired by such provision. Subject to prior agreement with the Principal, the Agent undertakes to replace the provisions declared null and void or impossible to execute with valid ones, the economic consequences of which are as close as possible to those of the provisions affected by the nullity, illegality or impossibility of execution. To this end, the Agent undertakes to modify this Agreement accordingly.

16.3. Actions and non-existence of waiver

The rights, powers, and remedies set forth in this Agreement are cumulative and are not, and should not be construed as if they were, exclusive of any of the rights, powers, or remedies provided by law.

In no event shall the failure to exercise or delay by the Investor in exercising any of the rights, powers and remedies provided for by this Agreement or by law constitute a waiver of this Agreement. Similarly, no single or partial waiver of such rights shall prevent the subsequent or distinct exercise of such rights, or the exercise of any other rights.

16.4. Notifications

Any communication between the Collateral Agent and the Investors relating to the Contract must be made in writing, and the Collateral Agent must communicate it to the Platform, which in turn must communicate it to the Investor(s), and vice versa.
