

# Ultima Risk Management (URM)

## Consultancy Services

URM has expertise in the areas of **information security** and **governance**, **business continuity** and **risk management**, including the review and development of information security policies/ processes and business continuity plans in order to **improve working practices** in these areas. URM's consultative approach is based on transferring as much knowledge as possible to the client and delivering solutions which are appropriate, sustainable and pragmatic. URM's particular niche skills include:

- **ISO 27001 (Information Security Management)** UK's market leader, having assisted over 100 organisations to certify against this leading international Standard
- **ISO 22301 (Business Continuity)** Certification support and 10 year track record conducting business impact analyses (BIAs), as well as developing and exercising business continuity plans
- **ISO 20000 (IT Service Management)** Certification support and integration with other management systems
- **Payment Card Industry Data Security Standard (PCI DSS)** URM is an accredited Qualified Security Assessor (QSA) company and can provide both consultancy and assessment services
- **Data Protection Act (DPA)** URM assists organisations comply with the DPA.

Getting the balance right

## Training Services

All of URM's training courses are led by highly experienced, practising consultants who bring a 'real world' perspective to the classroom.

- **BCS Accredited Courses (Residential training courses concluding with an exam)**
  - 5 Day Certificate in **Information Security** Management Principles (CISMP)
  - 5 Day Practitioner Certificate in **Information Risk Management** (PCIRM)
  - 5 Day Practitioner Certificate in **Business Continuity Management** (PCBCM)
  - 3 Day Certificate in **Software Asset Management** Essentials (CSAME)
- **Awareness, Implementation and Auditing Courses (Public schedule and closed courses)**
  - 1 and 2 Day Courses (inc. ISO 27001, ISO 22301, PCI DSS, Data Protection, Risk Management)
- **Computer Based Training**
  - URM has developed a modular eLearning software product called **Alurna** which is ideal for delivering tailored awareness training to all staff on information security, business continuity, company policies and processes etc.

## Risk Management Software

**Abriska**, is a web based risk management software product which has been developed by URM to meet the BIA and risk assessment requirements of ISO 27001 and ISO 22301. Having been used in a multitude of successful certification projects internationally and having been assessed by a number of certification bodies, **Abriska** delivers risk assessments which are robust, auditable and which will save organisations considerable time and effort.
