

Somfy Tilt & Lift – Factory Reset

Please Note: If you have ordered multiple motorised blinds, it is important that you only wake one blind at a time in order to set up each blind individually.

Resetting the Motor:

Press and hold the programming button on the motor for approx. 12 seconds until the blind jogs x3 times

Pairing the Remote:

Using your remote (If you have a multi channel remote please ensure you are on the correct channel first), Press the Up and Down buttons together until the blind jogs once

Checking the Direction:

Test the direction making sure Up is Up, Down is Down, if this is correct please move on to Setting the Limits, if this is incorrect:

- a. Press and Hold the MY button until the blind jogs once. The direction will now be reversed.

Setting the Limits

To begin setting the limits:

1. Press and Hold the Up button to the blind reaches the desired position. This can be adjusted by using the up/down buttons
2. In order to memorise the Upper limit, Press the MY and Down buttons together. The blind will begin travelling downwards to set the lower limit
3. Press the MY button to stop the blind at the desired lower position. This can be adjusted by using the up/down buttons
4. In order to memorise the Lower limit, Press the MY and Up buttons together. The blind will travel to the Upper limit again
5. To confirm, Press and Hold the MY button until the blind jogs once. The limits should now be set.

You now need to exit programming mode.

Exiting Programming Mode

To exit Programming Mode, Briefly press and release the programming button on the back of your remote. The blind should jog once to confirm.

Set Up is now complete.
