

Join in with the Family Art Fun programme – free activities every weekend and school holiday. www.vam.ac.uk/families

Download the free program Autodesk Sketchbook from www.sketchbook.com to design a kaleidoscope of patterns.

Explore the Glass hub on the V&A website: <http://www.vam.ac.uk/page/g/glass/>

Visit the Glass Gallery, Room 131 at the V&A. Draw the shadows, reflections and distortions created by light passing through the glass.

What's going to inspire you next?

Design the World

Session 5: Digital Patterns

Design the World is a five-session project for Looked After Children and their carers from Hammersmith and Fulham, Royal Borough of Kensington and Chelsea, and Westminster. Each Sunday, the participants explore the Victoria and Albert Museum for inspiration and work with a designer to make their own original creations.

What we did today

Textile designer Emma Neuberg met us and led the workshop.

Using tablets, we created a textile pattern inspired by the Glass Gallery.

We made paper collages to plan the design for a tote bag.

Our bag design and textile patterns were brought together to create the final piece.

What we made
