

NEW ADVANCED RESERVATIONS APP

Darius Q - Giving your shoppers the ability to plan better - queue less - spend more

Being **Open for Business** is not enough to bring shoppers back to your retail destination. To reclaim lost footfall during the current Covid crisis, retail stores need* to take the uncertainty out of physical shopping by offering customers the option to **reserve and plan their shopping trip**.

In a world where retailers are competing against easily accessible online shopping sites, queues are guaranteed to be one of the biggest barriers.

“ *88% of shoppers said they would visit a shopping destination more frequently if they could pre-book their shopping slots ”

- UK & Ireland consumer research, October 2020

THEREFORE ADVANCED BOOKING IS STILL ESSENTIAL EVEN IF YOUR STORE DOESN'T CURRENTLY HAVE MANY/ANY QUEUES.

Consider this...

Many shoppers haven't returned to high street, retail parks and local stores because they don't want to take the risk of having to queue

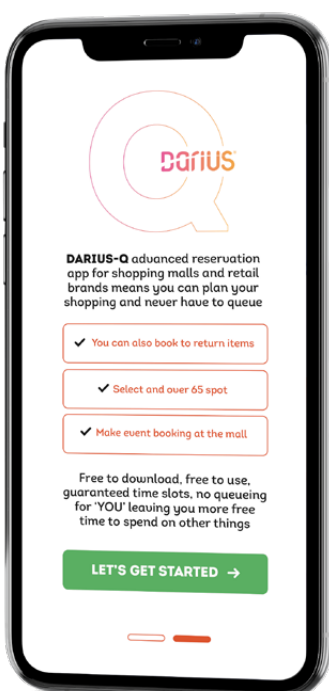

Existing and any new future government restrictions in relation to capacity

How weather will impact shopping trips

The likelihood of shoppers with advanced reservations spending more than average

Darius Q helping you...

- Reduce Queue Times
- Regulate visitor numbers across busy and quiet periods
- For Retail Brands, allocate click & collect and customer return trips to quieter periods
- Increase dwell time, visitor frequency and revenue in-store.
- Drive ROI from marketing spend with quick, convenient online booking from your website, social media, or online ads
- Assist retailers with track and trace
