# PRINTING SOLUTIONS

THIRD QUARTER 2015

print • copy • scan • fax • label...and sew much more

## Brother International

Founded in 1908, Brother is a leading brand that produces quality innovative products for the print and imaging, labelling and sewing markets in more than 100 countries worldwide.

Key products include laser printers, multi-function centres (MFCs), fax machines, labellers, label printers, and a wide range of home and industrial sewing machines.

A trusted brand worldwide that believes in the "Customer First" approach in all aspects of our business, Brother has continuously met the varied needs of our customers through our comprehensive range of quality solutions.

Brother International South Africa (Pty) Ltd is the regional headquarters for Southern Africa. Established in Southern Africa in 1971, the company today manages an extensive network of subsidiaries in South Africa, Botswana, Zimbabwe, Zambia, Mozambique, Namibia and Madagascar.

Brother's printing business is committed to the advancement of technologies and "work style innovation" and constantly strives to pioneer new technologies and improve product quality.

Brother offers printing and labelling solutions that are convenient to use, help streamline workflow and increase efficiency making them ideal in both the corporate environment as well as at home.

For more than a century, Brother has won recognition as a brand synonymous with delivering product innovation and customer satisfaction.

Brother Earth describes our positive attitude and commitment to our communities and our planet - our goal is to play our part to help build a society where sustainable development can be achieved. At Brother we take responsibility, act respectfully and try to make a positive difference in everything we do – from product design and development to eco-partnerships and environmental campaigns.

## Our Environmental Engagements

Using ENERGY STAR® labeled products can make a huge difference in our energy usage. Our ENERGY STAR® products are capable of conserving energy through power management, sleep mode, running cooler and lasting longer and are on average, 25% more efficient.

Products carrying the Blue Angel mark have been approved to strict domestic and international standards first established in Germany over 30 years ago. As the world's leading environmental standard, the test criteria are rigorous; but it's what we aspire to for all our products.

The Swan is the official Ecolabel in the Nordic region introduced in September 1989. Today, there are over 65 different groups of products, from laundry detergent to furniture and hotels. This makes the Swan the leading eco-label in the world.

Brother has formed a partnership with Cool Earth and we are helping to protect part of the Ashaninka area of the Peruvian Amazon. Our sponsorship is already safeguarding more than a million trees, as well as preserving the habitat of endangered wildlife.

## Brother Cloud Apps

## Brother Web Connect

## Mobile Device Printing and Scanning

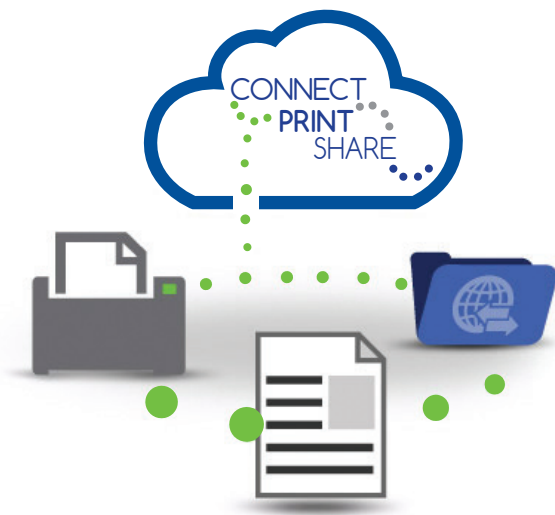

# The Brother document sharing solution for mobile devices and web users

## Mobile Device Printing & Scanning

Enjoy the convenience of using your wireless network to print from and scan to smartphones and tablets when you install a compatible Brother device in your home, office, workgroup or business.

With a number of options available for leading mobile operating systems, it's easier than ever to integrate multiple mobile devices into your everyday workflow.

## Brother™ Web Connect

Many Brother devices have innovative Web Connect features that allow you to upload documents or photos from a scan or memory card, or print documents directly from popular online storage sites.

## Brother™ Cloud Apps

Brother™ Cloud Apps are a free suite of innovative, cloud-based applications that you access directly from select Brother devices. You'll be amazed by how much you can do right from your machine, without using a computer. The Brother Apps suite is expandable, and Brother is developing new apps that will become available for download as they are completed.

## Brother iPrint&Scan

Is a free application that enables you to easily print and scan photos or documents from your iPhone, iPod touch, iPad, Android device or Windows 7 phone to selected Brother printers and multi-function centres using a local wireless network.

- Its easy to use
- Simple steps to print your favourite photos
- Print photos directly from your iPhone camera
- Print PDFs by starting the app from "Open in..."
- Scan directly to your iPhone, iPod touch, iPad or Android device
- Save scanned images to your photo album or email them
- Automatically search for supported devices on a local wireless network
- No computer and no driver required
- All network models require connection to Wi-Fi network.

## Apple AirPrint

AirPrint lets you print photos, email, web pages, and documents wirelessly from your iPad, iPhone, and iPod touch without the need to install a driver.

## Google Cloud Print™

Google Cloud Print™ is a service provided by Google that allows you to print to a printer registered to your Google account using a network-compatible device, such as a mobile phone or computer, without installing the printer driver on the device. Can only be used in Google Chrome.

Make the most of your Brother machine with these features designed to offer affordability, multiple functionality and increased productivity, giving you incredible flexibility at outstanding value.

#### SAVE MORE WITH EVERY PRINT

Enjoy greater cost savings with automatic 2-sided printing and experience greater convenience with mobile printing and easier sharing via wired and wireless networks. Reduce your running costs when you choose high yield ink and toner cartridges for heavy print volumes.

Plus, Brother's 4-cartridge ink system means that you only replace the colours you need!

The separate drum and toner system is designed to reduce component wastage. Save money with reduced cost per page. Reduce the environmental impact of your printing by reducing the overall number of cartridges.

#### DUPLEX PRINTING

Choose the Duplex Printing option to print your documents on both sides of the paper and reduce the amount of hard copy output making it more convenient to handle and store and reduces paper cost.

#### N-IN-1 PRINT & COPY

The N-in-1 feature can help you save paper by letting you print or copy multiple pages onto one printed page saving paper and space.

#### CONNECTIVITY

Enjoy convenience, flexibility and wireless connectivity to multiple devices with smart, built-in features such as mobile printing and USB Direct Print that simply boost productivity.

#### PC FAX

PC Fax allows you to send faxes right from your PC. Certain multi-function centres are equipped with both PC Fax send and receive capability. PC fax send only for Mac users.

#### HIGH PRODUCTIVITY. LESS FUSS

Eliminate excessive downtime with Brother networking administration tools (BRAdmin Professional Software) which provides status monitoring and configuration capabilities.

#### SECURITY FEATURES

**Secure Print** feature ensures that confidential or sensitive documents do not print until a password is entered via the machine's control panel.

**Secure Socket Layer** (SSL) helps prevent hackers from reading your sensitive print data as it is sent across the network. Using SSL communication and electronic certificate and private key are installed on your machine. Your encrypted print data will not be printed unless the certificate and key match between the print data and the machine.

**Secure PDF** allows you to scan and password protect sensitive documents.

**Secure Function Lock** allows an administrator to select the various functions per user (up to 25 users) via password. These functions include printing, copying, faxing (send and receive), scanning and USB Direct Interface\*.

\* Functions vary by model.

**Kerberos** is a network protocol that offers a more secure way of scanning documents directly to a folder on your network. It uses special encrypted tickets when accessing and exchanging information from a Kerberos server, making it safer than using standard names and passwords. It also provides a more secure way of job logging (via CIFS).

## SOLUTIONS FOR EVERY WORKPLACE

Identify your printing requirements below and make the task of selecting the correct Brother machine so much easier. Match the colour code to suitable machines in the pages that follow. Visit [www.brother.co.za](http://www.brother.co.za) for detailed product specifications on our full product range.

### Home and Home Office

If you are a home or home office user, you have light print volumes and need an affordable printer for basic document printing. You may also want a space saving design, as well as the ability to share your printer among one or more computers.

### Small to Medium Business

If you are a small or medium office, you have higher print volumes that need more performance and a lower cost per page. You need flexible and expandable paper handling and may also require network connectivity.

### Workgroup and Commercial

If you are in a workgroup or commercial business setting, you will have higher daily print volumes. Top priorities for you are total cost of ownership and network connectivity as well as colour or monochrome requirements.

You may also need a large standard paper input capacity that can be expanded, in addition to tools for managing printers on a network such as Secure Function Lock, Secure Print and Kerberos network protocol.

If you are a colour laser user in a business environment, you will likely need to produce colour brochures, reports and presentations. You are most concerned with colour output quality, compatibility with existing software applications, flexible connectivity and low operating costs.

# COLOUR INKJET MULTI-FUNCTION CENTRES

Brother Colour Inkjet technology offers high quality, efficiency, and reliability across its entire range. From home offices to small and medium businesses, Brother colour inkjet machines are designed to suit every business environment.

Many printer models offer integrated WiFi and wired network connectivity and high speed 2-sided printing. All colour inkjet models offer high functionality in a compact, space saving device.

## Meet the Incompatibles...

When you've invested in a high quality Brother printer, you expect the best results every time. That means using Brother Original inks and toners. If you don't, not only do you run the risk of The Incompatibles severely affecting the quality of your prints, they might also cause lasting damage to your printer.

## They're right little monsters...

## Now meet The Originals THE BROTHER ORIGINAL SUPPLIES THAT WORK IN PERFECT HARMONY WITH BROTHER PRINTERS

Manufactured to the highest possible standards, Brother Original Ink and Toner Supplies guarantee effortless performance, every time. Precision engineered and rigorously tested for optimum print quality, with these little angels on your side you won't be troubled by those pesky monsters.

## USE BROTHER ORIGINAL SUPPLIES FOR A 100% NO MONSTER GUARANTEE.

# MONO LASER PRINTERS & MULTI-FUNCTION CENTRES

Brother Laser technology offers high quality, efficiency, expandability and reliability. Machines look to maximise efficiency through innovation and technology.

Many printer models offer integrated WiFi and wired network connectivity and high speed mono printing. Entry level models offer high functionality in a compact, space saving device. All Brother laser machines utilise separate toner and drum units to reduce print costs.

## BROTHER GENUINE SUPPLIES

- Using Brother Ink ensures an ink droplet size of 1.5pl (picolitre). The smaller the droplet size, the higher the capability to accurately place these droplets on the paper. This produces smoother and sharper images with finer definition. This guarantees you get excellent print quality every time
- Brothers' Innobella inks produce a lifelike colour quality which is fade resistant for over 100 years
- Our black ink cartridges have achieved ISO 11798. This means they'll be readable even after exposure to light, water, handling and storage
- All Brother Inkjet multi-function centres implement an individual ink cartridge system
- The viscosity of original Brother ink is designed to flow through critical points of the Brother ink cartridge and print head with ease and on demand ensuring even ink delivery and distribution.
