Notes

Vast Resources plc is an AIM listed mining and resource development company focussed on the rapid advancement of high quality brownfield projects and recommencing production at previously producing mines.

With this strategy, Vast Resources commissioned two mining operations in 2015; the Manaila Polymetallic Mine in Romania and the Pickstone-Peerless Gold Mine in Zimbabwe.

The Company has a broad portfolio of additional exploration and development projects in Romania and Southern Africa with significant potential for exploitation in the mid- to long- term. This includes the Baita Plai Polymetallic Mine in Romania, where work is currently underway towards obtaining the relevant permissions to start developing and ultimately commissioning the mine.
