BUSINESS INTELLIGENCE ANALYST

CLIPPER

Clipper Bulk is searching for a dedicated and strong Business Intelligence Analyst to the Business Planning & Analysis team located in Copenhagen

Clipper offers a unique opportunity to influence the use of BI in Clipper, engaging closely with the business when you develop business relevant analysis and reporting. You will be part of Clipper's Business Planning & Analysis team, which is part of the finance organization.

Delivering analysis that supports fact-based decision-making
As Clipper's BI Analyst you will be a key player in delivering excellent analysis that supports commercial decisions and financial reporting. You will also play an important role in the BI set-up, gathering functional requirements for the further development of BI in Clipper.

We have a data warehouse developed by an external vendor from two primary sources: ERP system and financial system. You will collaborate with the vendor to keep the data warehouse up-to-date and able to fulfil reporting and analysis requirements for all relevant departments.

Your primary tasks will be to:
- Design and develop analysis and reporting solutions based on business needs
- Be superuser on front-end PowerBI tool
- Spar with business stakeholders in order to produce reports in PowerBI that satisfy their needs
- Keep the business up to date on the BI analysis pipeline and progress at their requests
- Administration of PowerBI Portal - this includes publishing reports, specifying data sources in gateway, administering workspaces and user-permissions.
- Communicate requirement specs to external vendor(s) in connection with extension of the present data warehouse, creation of tabular models etc.

You will have a strong finance team as your daily sounding board, all working towards delivering strong solutions in close cooperation with the business.

Your background:
- Minimum three years of experience and the potential to grow and take on more responsibility
- A relevant higher education e.g. MSc. in finance or equivalent
- Experience from BI or finance team, where you have prepared analysis and reporting
- You must have a solid understanding of basic data warehouse concepts such as dimensions, members and measures and their internal relations
- Quick to acquire knowledge on how business concepts are expressed in data warehouse and grouped in dimensions and facts. The goal is quickly to work independently together with the end-users

In addition to this, we expect you to:
- work well both independently and as part of a team
- have a structured approach to work and be accurate in details
- be ambitious, innovative and have good interpersonal skills
- be motivated by improving existing set-up and naturally challenge it
- communicate effectively in both written and spoken English

Clipper offer:
A challenging and independent job, a good working environment, a competitive compensation package and good working conditions in modern facilities with an excellent lunch scheme, fitness room and a number of staff activities.

Application:
Please send your application, CV and other relevant documents through this link. Should you have any questions regarding this position, please contact Head of Business Planning & Analysis Mads Emil Salomonsen on tel. 26365165. All enquiries will be treated with full discretion. Interviews will be arranged continuously. Start as soon as possible.

Clipper is an industry leader in dry bulk, an operator, a pool manager and a specialist in steel services. We operate a modern fleet of approximately 75 handysize and supramax vessels, transporting a wide range of cargo from dry bulk to break bulk. Clipper is commercially headquartered in Copenhagen and employs a staff of 110 on shore worldwide. We are a global workplace with strong values where we welcome the right mindset, curiosity and ambition. Find out more at clipper-group.com.
