

## **Dynamic and solution-oriented QA**

Are you motivated by a changing and dynamic environment with steady flow of new projects and a large assignment diversity? Do you work independently, and do you thrive in engaging in projects cooperating with other professions, where your task is to ensure the completeness and quality of our documentation? Then we need you in our QA-team.

### **About NCK A/S**

NCK A/S is a contract company with expertise in process development, production, and analysis of active pharmaceutical ingredients (API) for use in early clinical development of drugs. We have a multifunctional production facility and supply both non-GMP and GMP products to customers worldwide. We place emphasis on providing our customers with a high-quality service, as well as meeting deadlines. We are a total of 35 employees.

The QA team consists of 3 people who work closely with synthetic chemists, analytical chemists and the production department in various projects on a daily basis and are part of the constructive, solution-oriented process.

Internally in QA, we have frequent sparring regarding developing solutions and ensuring optimal processes in relation to quality, efficiency, and meeting customers' expectations.

### **Responsibilities**

- ◆ Participation in status meetings and sparring with project managers and QC
- ◆ Review of batch and analytical documentation
- ◆ Preparation and review of procedures and methods
- ◆ Deviation handling
- ◆ Training of employees in GMP and procedures
- ◆ Oversee calibration, qualification and validation activities for equipment and methods
- ◆ Preparation for and participation in audits with both customers and authorities

### **Your professional qualifications**

- ◆ You have a scientific background as a pharmacist, engineer or cand. scient. (synthetic/analytical chemistry)
- ◆ You have GMP experience
- ◆ You are in a QA position today or have knowledge of QA work
- ◆ You likely have some years of experience from a similar position
- ◆ Since most of our customer-oriented communication and documentation is in English, you master this, both orally and in writing

### **Your personal qualifications**

We place great emphasis on personal qualifications and expect that you:

- ◆ are well-structured with good prioritization and planning skills
- ◆ are quality- and detail-oriented
- ◆ are solution- and result-oriented
- ◆ have good communication skills
- ◆ are a team player
- ◆ are service-minded and flexible

- ◆ thrive in an informal environment with a great sense of responsibility for the individual projects and processes
- ◆ work well with important deadlines and unexpected challenges

### **We offer you**

- ◆ an independent job with exciting and versatile assignments
- ◆ interesting and challenging projects
- ◆ close dialogue and cooperation with committed and competent colleagues
- ◆ to be part of a small business where you matter, and you are an important part of a whole
- ◆ professional and personal development opportunities as well as opportunity to contribute to the constant development of NCK

For further information please contact QA Manager Thomas Høyrup Hemmingsen on tel. 4439 6045.

Unik Human Resources handles the recruitment in collaboration with NCK. Please send your application and your CV as soon as possible via the link below as we have ongoing interviews over the autumn.
