

Daichii Sankyo and its 15.000 employees in more than 20 countries are dedicated to the creation and supply of innovative pharmaceutical products. We have a 2025 Vision to become a "Global Pharma Innovator with Competitive Advantage in Oncology". Our European headquarter are in Munich, Germany and we have affiliates in 12 European countries including Denmark, where Copenhagen act as the Nordic headquarter. In the Nordics we have started an exciting journey and we are now looking for a newly created position as

Nordic Commercial Lead Oncology (m/f/x)

You will report directly to the GM Nordics and be a member of the Nordic Management Team. The primary purpose is to successfully launch the product in the Breast Cancer indication with anticipated additional indications of gastric and non-small cell lung cancer. This will be done in close collaboration with the medical, market access as well as the commercial.

Do you have:

- Strong leadership skill +5 years
- Experience on product launches in Oncology (in the Nordic region is highly valued)
- Good communication skills
- Strong analytical and operational skills
- A academic education MSc, MD, PhD, MBA
