

Marine Superintendent at UltraShip

Would you like to work in a dynamic, international environment and do you have knowledge of safety, quality and vetting? Then this may be the position you are looking for.

The Job

You will be a key member of our Marine QA Department, supporting our safe operation of the Company fleet. As a Marine Superintendent you are the cornerstone in ensuring that our company's safety culture is integrated into everything we do. You ensure close cooperation between the vessels and the office, influencing colleagues in delivering safe and efficient operation. You conduct internal audits on board and ashore, you handle customer vetting and finally you ensure that we do not only comply, but that we also step up in ensuring a very high standard of operation.

Your profile

You have an education as Master Mariner or a similar maritime background. Safety, quality and vetting are areas where you have plenty of insight.

Without compromising the overall objective "Safety", you love the challenge of a hectic environment where priorities constantly change and innovation is daily business - always maintaining focus on quality and detail.

You are not afraid to step in and intervene, if things are taking the wrong direction. As an open and outgoing person with a good sense of humor, you thrive in a global environment working with people from all over the globe.

What we offer

- International environment and a variety in tasks
- Highly motivated team in a company in growth

Please apply as soon as possible as we are reviewing applications on an ongoing basis.
