

Operations Controller at Ultranav Business Support ApS

The Job

One of our valued employees through many years has decided to retire this spring hence we are now looking to fill a position as operations controller.

The Operations control department is part of the support function in Ultranav and is working closely with our Operations departments around the world. The department functions as the link between Operations and the Accounting and primarily handles our large leased fleet, broker commissions, laytime and business controlling of our commercial system. Operations Control ensures that unsettled payments from vessel owners and charterers are collected and you will be responsible for the controlling of one of our foreign offices

You will work closely together with a highly dedicated and professional team, with a focus on delivering results of high quality and accuracy - also during busy periods. Together with the team you focus on controlling, solving problems and mitigating risks for the entire company. As part of your introduction, you will receive specific and relevant training from your colleagues.

Your Profile

- The ideal candidate will have at least 3 years of experience within operations control/operations/demurrage or a bachelor degree within economics combined with a desire to work in the shipping industry.
- Personally, you are a strong team player with the ability to build relationships and work constructively with others, to achieve business goals.
- You thrive in a high paced environment, where you are in daily contact with colleagues, agents and international customers, handling complex tasks without losing your focus.

What we offer

- A unique opportunity to join a highly international shipping environment and a company with a financially strong platform and a business built on partnerships and long term relationships.
- A social and open workplace with good company benefits such as a pension scheme, health insurance, lunch and massage.

Apply now

Application process: Apply as soon as possible as we will review the applications ongoing.

Location: Copenhagen, Denmark
