

Operations Manager at UltraGas ApS

Would you like to work in a dynamic and international environment, and are you an experienced and professional Operations Manager? Then this may be the position you are looking for.

The Job

As an Operations Manager in Ultragas you hold an essential role in delivering safe and efficient transportation of our customers various petro-chemical gas commodities. You will be in daily contact with our customers, captains, port agents, owners, and last but not least your Ultra-colleagues internally as well as externally. Your focus will be on meeting our customers' requirements and on optimizing the result of each voyage by ensuring a close follow-up on voyage related value drivers such as speed/consumption, port expenses, turnaround in port etc.

Your Profile

- You have experience from a similar position as an operator, preferably from within the gas shipping industry though this is not an absolute requirement. You demonstrate good communication skills and possess an analytic problem solving mindset.
- You are a team player and at the same time able to work independently by taking ownership of your tasks; your follow-up and ability to deliver is second to none. You thrive in a varied and unpredictable working environment where skills as persistence, overview and can-do attitude will support our ambition of being our customers' preferred partner in our business.
- You take pride in delivering good service to our customers and your approach and work is well-organized, structured and effective. In addition, you demonstrate an excellent attention to detail without missing the overall picture.
- You appreciate working in a multicultural environment and you must be fluent in English, as it is our corporate language. Further, you must have good IT skills and knowledge of IMOS is an advantage.

What we offer

- A unique possibility to be an important part of the continued development and expansion of our operations.
- Possibility to develop your interpersonal and as well as professional skills.
- To join a fully integrated shipowning company being part of a truly international group with a financially strong platform and a focus on customers and on building partnerships and long-term relations.

About us

Ultragas is a globally recognized gas carrier owner and operator, servicing customers in regional and deep sea trades. It operates a fleet of 20 LPG carriers up to handy size. Cargoes carried are refined petroleum products and petrochemical gases including Ethylene.

Ultragas is an integrated shipowner with full technical management and crewing done in house by our ship management company UltraShip. Today 11 Ultragas gas carriers are under Danish flag. The fleet is commercially operated by Ultragas in Copenhagen as well as in the Unigas partnership from Rotterdam.

Ultragas is part of the Chilean Ultrana Group and is located in Copenhagen, Denmark. The business concept revolves around delivering a safe and high quality service, whilst maintaining and developing partnerships in the best interest of all involved.
