

Travelling Superintendent at UltraShip

The Job

As our new Travelling Superintendent you will play a key role in the safe performance of our vessels. Since the role is new to our organization you will play an important part in defining the position.

After thorough introduction to the shore-based organization and work process, you will spend the majority of your working time on four dedicated vessels on rotational basis, being in close contact with the office in Gentofte.

Being the link between the office and the company vessels, your main tasks will include providing direction, support, training and coaching to our crew – actively assisting in developing a pro-active culture and smooth and solid processes onboard.

In addition, you will monitor and participate in the maintenance of onboard systems, with particular focus on safety- and environmentally critical equipment. You do not hesitate to intervene to ensure that high standards are maintained.

Your profile

- You have an education as Marine Engineer, Dual Officer or similar, and preferably you have solid experience with tankers (gas, chemical, or oil tankers).
- You possess a good general understanding of the vetting process as well as applicable Rules & Regulations.
- You thrive working with other people, and with a strong sense of cultural awareness and leadership skills, you are able to work alongside other nationalities.
- You seek insight and you are curious about everything related to vessel operation. You know that as a Travelling Superintendent you have a lot of interaction with people onboard our vessels, and that you as a role model always use this opportunity to influence our safety culture positively.

What we offer

- A dynamic and International environment in a company with a financially strong platform and a business built on partnerships and long term relationships.
- You will become part of a highly professional and dedicated team of colleagues.
- Good company benefits such as a pension scheme and health insurance.
