

## Assistant Business Analyst at Ultrabulk A/S

### The Job

As a talented and ambitious Assistant Business Analyst at Ultrabulk A/S, you will provide high quality analytical and financial insights to our business unit Ultrabulk A/S. As a part of our Business Intelligence Team, your job includes structuring large amounts of financial and non-financial data into business relevant analyses that will support strategy and decision making. You will have a broad variety of strategically important tasks within the company and the main deliverables will include; preparation for board meetings, forecasting, budgeting and reporting. Further to this, you will have the opportunity to challenge existing analyses and suggest new ways of improving our business with the purpose of delivering increased value and drive business performance.

### Your Profile

- You either have a relevant bachelor degree or a few years of shipping experience and a talent for crunching numbers
- It is imperative that you have an interest for big data, a high level of analytical skills and that you can convey complex results in a simple manner
- You are independent and a self-starter who can proactively identify the core of the business needs and challenge status quo
- Our environment is fast paced, wherefore you must have a sense of urgency and at the same time excellent attention to detail – without missing the overall picture
- You appreciate working in a multicultural environment and as English is our corporate language, fluency in English is a prerequisite
- You have excellent MS Office skills, in particular Excel (Superuser)
- Experience with SQL coding, QlikSense (or other BI tools) or Macros in Excel is an advantage

### What we offer

- A unique possibility to join a highly International and challenging shipping environment
- A company in growth, where you can influence the strategic direction
- An opportunity to advise decision makers and unfold your analytical skills
- A chance to be at the center of an increasingly important Business Intelligence Team
