

Medical Director

Y-mAbs Therapeutics A/S (Y-mAbs) is now looking for a Medical Director.

In this newly established position you will be part of our dedicated medical expert team and report directly to the SVP, Chief Medical Officer. The position is placed at our Copenhagen Office, located in Hørsholm, Denmark

Y-mAbs is a clinical stage biopharmaceutical company, listed on Nasdaq. Y-mAbs is focused on developing new cancer treatments through immunotherapies. Our most advanced programs are confined within pediatric oncology. In addition to clinical programs, Y-mAbs utilizes its platform technologies to create next-generation humanized, affinity matured bispecific antibodies

Our activities are expanding, with initiation of new clinical trials in both Europe and US this year and plan for BLA submissions for our two lead products ¹³¹I-omburtamab and naxitamab. Our innovative pipeline is expected to result in more clinical activity in near future and we have activities spanning from early stage development through pivotal clinical trials, planned license application submission(s), product approval(s) and beyond.

As our new Medical Director your will oversee the direction, planning, execution, and interpretation of clinical trials of one or more clinical programs. You will participate in cross-functional teams to generate, deliver, and interpret high-quality clinical data supporting overall product strategy.

Also, a key role is to expand and maintain high quality international KOL network within relevant areas. You will also be part of medical evaluations of new target proposals and responsible for designing new clinical programs including First-in-Human clinical studies as well as pivotal trials. Y-mAbs operates with an outsourcing model using an external CRO, however full medical oversight is mandatory, thus close collaboration with external the CRO is an integrated part of the position.

Key responsibilities:

- Provide medical expertise and therapeutic knowledge within field on oncology including keep awareness over latest research and competitive landscape
- Manages the design and implementation of one or more clinical development programs in support of an overall Product Development Plan, based on strong medical and scientific principles
- Developing and maintaining international Key Opinion Leader relationships
- Medical resource for cross functional teams
- Medical evaluation of new target proposals

Personal and professional qualifications:

- Medical Doctor (MD)
- 3+ years' experience in industry (R&D Medical position)
- Experience in First-in-Human clinical trials an advantage

- Completion of a residency program required. Completion of a subspecialty fellowship within oncology is desirable.
- Prior experience with Health Authority meetings an advantage
- Prior experience working with CROs an advantage
- Previous experience establishing and maintaining external KOL network
- We expect you to have an entrepreneurial mindset
- Demonstrates initiative and capacity to work under pressure
- As a team player, you can work with ambitious timelines in our slim organization with a cross-functional team
- You are result-oriented and committed to contributing to the overall success of YmAbs
- Ability to communicate complex clinical issues and analysis orally and in writing
- Our company language is English, so your communication in both written and spoken English is fluent

Y-mAbs offers:

- An exciting work environment where challenging assignments will come your way
- Great office location at DTU Science Park including canteen and easy parking
- Competitive salary package including pension and health insurance

For more details about the job or our company, please contact Steen Lisby SVP, Chief Medical Officer at +45 7026 1414. Please note that all applications must be submitted in English and will be treated confidentially.

Deadline: please apply by email to info@ymabs.com as soon as possible as we start interviews in a rolling manner.
