

## **Acarix is hiring – Full time Clinical Program Manager.**

**Background:** Ruling out Coronary Artery Disease by the CADScor System is Acarix main focus. We are therefore continuously conducting clinical trials to explore the CADScor System performance in new patient segments and for registration purposes in new geographic territories, including EU, US and China.

Both types of studies are important to be carried out in a timely manner, at cost and at the highest quality. To do so, we are looking for an experienced Clinical Program Manager, preferably starting by end 2016 or early 2017.

**Job description:** The job contains all clinical aspects from trial partner identification, applications to authorities to initiating clinical trials, and to manage ongoing trials and final reporting of the results, including clinical evaluation reports, publications and presentations.

### **Your qualifications:**

Education on masters/PhD level in relevant life science area, combined with solid proven clinical experience from pharma or med-tech industry.

Experience in clinical study management; investigator- and CRO management and negotiation; regulatory and ethical authority communication.

Independently professional in protocol and application writing including other study documents, study reporting and project oversight, while conducting trials.

Substantial knowledge of relevant regulations and guidelines like ICH, GCP, FDA and EMEA.

### **Your personal skills:**

Strong communication, problem solving and interpersonal skills creating solid relations to all involved partners. Ability to stand up and resolve problems under pressure satisfying common interests is essential.

Fluency in English (oral and written).

Knowledge of work-life in a small but aspiring company from previous jobs is an advantage.

### **Place of Work:**

Acarix is currently situated in Kongens Lyngby, North of Copenhagen. Expect up to 30 travel days per year (initiating-/conducting trials/conferences). Acarix is still a small company, so also expect to have short communication paths and big influence on the future of Acarix.

### **How to apply:**

Please forwards email application to: Claus BV Christensen, [dkcbc@acarix.com](mailto:dkcbc@acarix.com).

Besides a motivation for applying for the position, include CV, and relevant educational documentation in PDF, names and contact details of at least two informed reference persons, relevant study briefs, and other documentation you think needed to get the job.

Application deadline: Monday, December 12<sup>th</sup>, 2016.
