

Prof. Dr. med. Steven Hildemann
Executive Vice President,
Chief Medical Officer, Ipsen

Dr. Hildemann joined Ipsen in March 2020, and is Executive Vice President, Chief Medical Officer, Head of Global Medical Affairs, Patient Safety and Patient Affairs at Ipsen.

Prior to joining Ipsen, Steven held leadership roles in science-based bioethics and built an innovative digital health startup in cancer care after serving for five years as Chief Medical Officer, Senior Vice President, Head of Global Medical Affairs and Global Patient Safety at Merck. He also held several strategic leadership positions with biopharmaceutical companies such as Pharmacia-Pfizer and Schering-Plough-MSD.

Steven is board certified in internal medicine and cardiology with broad clinical training across internal medicine at university hospitals in Munich, Germany. Throughout his career, he has engaged in part-time clinical practice, late-stage pharmaceutical research and medical teaching. He received his MD-PhD at the Albert Ludwig University of Freiburg, Germany, where he continues to serve as an adjunct Professor of Medicine.

Steven is deeply engaged in a major transformation of Medical at Ipsen in partnership with Research & Development, with a particular focus on Oncology.

Among many other topics, in ESMO interviews, Steven can speak to Ipsen's Global medical strategy based on real value provided to patients and caregivers, post-launch clinical trial data, combination therapies, life-cycle management and Phase IV studies presented at ESMO.
