

Turkey's First Medical Tourism Digital Reservation Portal

MedicalTourism.com.tr

MedicalTourism.com.tr presents medical, accommodation, flight and transfer services combined in high technology, rich content, ready to use portal.

✓ For Medical Tourists

People traveling for health purposes can use MedicalTourism.com.tr to search about medical institutions where they can fulfill their medical requirements.

Besides helping patients communicate with the medical institutions and health travel agencies; portal assists them in making appointments for their chosen medical treatments, also reservations for accommodation and travel services.

✓ For Medical Institutions

Medical institutions can use MedicalTourism.com.tr to publish general information about available treatments and prices; to provide information about their doctors, staff, facilities, international certifications; and to list their partner insurance companies.

✓ For Medical Tourism Agencies

Using the portal, Medical Travel Agencies can find the best eligible hospitals for their patients, communicate with the hospital and health professionals, send and receive quotes and follow up agency commissions and contract terms in their own portfolio.

Additionally, using the portal's technical infrastructure, the medical services agreed between medical travel agencies and hospitals, combined with flight, accommodation and transfer services, can be presented and sold under your own domain name.

✓ Why MedicalTourism.com.tr ?

- ✓ Enables the creation of Dynamic Medical Tourism Packages.
- ✓ Provides access to the best solution in the shortest time and at the best affordable price.
- ✓ Combining medical and travel services, portal prevents potential mistakes in planning, while saving time.
- ✓ Bringing together medical institutions and medical travel agencies portal leads to smoother and consistent cooperation for mutual benefit.
- ✓ Using the incentives and travel discounts provided for Medical Tourism make the portal the most economical solution.
- ✓ The portal produces forms automatically for insurance applications and financial transactions, for both Medical Tourists and Medical Tourism Agencies.
