

ENGAGE WITH YOUR AUDIENCE WORLDWIDE

With the current climate and restrictions prompting many companies to limit corporate travel, we have a range of audio and web-based conferencing solutions to enable you to continue meeting with colleagues and clients worldwide. Tailored to your specific meeting or event, we have a solution that will fit your needs and the technical expertise to deliver it.

AUDIO CONFERENCING • WEB CONFERENCING • LIVE STREAMING

■ Audio Conferencing

From simple conference calls to larger round-table discussions with dial-in options, we have a range of audio conference solutions designed with superior sound quality and noise-cancelling functionality.

- Conference Phones
- Push-to-Talk Mics
- Telephone Dial-in Option

■ Web Conferencing - small meetings (1-10)

Equipment supplied enabling online web conferencing for small groups to collaborate with colleagues and clients with great quality sound and video. Utilising your own preferred platform (Teams/Zoom/Webex etc) or our supplied platform for you to use.

Prices from £240.00+vat per day (includes laptop, HD webcam and noise-cancelling mic/speaker).

■ Web Conferencing - medium meetings (5-25)

Enabling larger groups to meet and connect with colleagues and clients worldwide with enhanced audio and video quality. All equipment supplied is suitable for the larger group and can integrate with your preferred platform.

Prices from £480.00+vat per day (includes laptop, upgraded HD camera, enhanced wireless noise-cancelling audio solution).

■ Hybrid Meetings - Larger Events

We are able to provide the technical expertise to make it possible for you to combine your physical event with virtual attendance and interaction, which will allow those, who are unable attend in person, to also share the experience. Broadcast quality video and audio ensuring delegate engagement and successful collaboration transforming your live event into a fully realised virtual experience. Presentations, keynotes, voting, breakouts and so much more. Technician supported for complete peace of mind.

Prices - individually quoted and based on your specific event requirements.

■ Remote Assistance

We can provide remote hosting and full support for your event, meeting or round-table from anywhere in the world. Using our platform, we can help manage the process from start to finish - meeting invitation links, keynotes, screen sharing, content, breakouts and all with technical assistance sitting in the background ready to help where needed.

Prices - individually quoted and based on your specific event requirements.
