

WELCOME!

In line with the current guidelines we have taken various measures to protect our guests and our teams. This means that we may look a little differently to the last time you visited.

We have removed a lot of high touch items from the bedrooms, to help reduce risk of contamination, so our comfy cushions and throws are no longer on your bed and the majority of paper and reading collateral has been removed from your room.

If you are staying with us for more than 1 night, in line with government guidelines, for the protection and safety of our guests and staff, your bedroom will not be serviced during your stay.

If you require fresh towels, toiletries or any amenities including tea and coffee during your stay, please just let reception know and we can arrange this for you.

Any maintenance issues in your room should be reported and we will only enter the room to rectify the fault when you are not in the room.

We cannot deliver room service, but you are welcome to pick up by dialling "0"
We can only offer Pizzas to the lodges

If I or my team can be of any help during your stay, please do not hesitate to contact us.

John Woodward

General Manager
