

09th July 2019

Dear Members and Guests,

Kindly note that our bi-annual hollow tining of the greens is planned for the **19th & 20th August 2019**. The golf course will re-open on the **21st August 2019**.

Following the necessary agronomical practice, one can expect a slower putting surface, as the greens will be top-dressed with sand. However, we expect a full recovery after 2 weeks.

We apologize for the inconvenience and thank you for your understanding.

Golfing Regards,

Corinne Yan  
Club Manager
