WEDDING BROCHURE

Capturing Moments that last forever

My style of photography is fun, friendly and a little bit different. I work in a relaxed, natural way. I love photographing the uniqueness of every wedding- the details, personalities, emotions, laughter and the love. I aim to capture this individuality so that your photographs reflect the real story of your day.

I try to capture your wedding moments in emotional and creative ways. I have fallen in love with photography especially involving people and emotions. I love what I do and I feel so very privileged to be able to share in the happiest moments in people's lives.

Every wedding has its magical moments and every time I am lucky enough to be asked to photograph a wedding I look forward to discovering what those moments will be!

Photography turned from a hobby to a passion and I love every moment of it.
