About us:

Nigel Coles Photography is a husband and wife team who have provided a professional wedding photography service for hundreds of couples over the years, including weddings in Cyprus and Spain, and have built up an excellent reputation.

Nigel is a qualified member of the BIPP (British Institute of Professional Photographers) and the MPA (Master Photographers Association). These professional trade associations ensure that their members work to a very high standard.

The service we provide:

Choosing your wedding photographer can be a daunting task - there are no second chances! That's why each and every wedding is important to us and we invest our time, skill and experience into ensuring that we create the best possible images.

Our wedding photography is fun, which means that we are able to produce relaxed and natural pictures of you and your guests and make everyone feel more involved and enjoy the experience.

Our coverage on the day depends on your requirements and chosen package, but we can cover from the brides preparations to the first dance. Because of our many years of experience we are able to make your day flow flawlessly under any conditions while still capturing fun and creative images that you will enjoy for a lifetime.

After the wedding, all your photographs taken on the day will be edited and uploaded to your personal viewing gallery where you and your guests can recap on the day, also having the option to order any required reprints.

We can also supply our Funky Nights Out for the evening with crazy props and backdrops

Why book a Professional?

You only get one chance to capture your wedding day and it's not just a case of clicking a button. There are many factors to consider when creating a professional photo. Exposure, aperture, lighting, editing skills, being able to cope with bad weather, having good people skills and staying organised.

Please give me a call to discuss your requirements and to check my availability. Alternatively visit my website to view examples of my work, however I would recommend that you visit my studio to see the full quality of the albums and books I can offer.
