VIDEO PRODUCTIONS

General Information

We cover from the bride's preparations (9.00 am) right through to dancing and we finish no later than 11.00pm.

We provide two camera technicians all day. We have a multi camera set up with many unmanned hidden cameras to capture many of the moments that normally would go unseen. People are relaxed as they do not see many of the cameras that we set up in the venue. Your guests are more likely to be more relaxed and enjoy their day because they are not under the spot light of a camera.

We find this true for the dancing also. We use two cameras that operate at low light levels and the technicians move around the dance floor so that people are unaware of their presence. We place two unmanned cameras either side of the band to cover the over all floor. Therefore your guests are shown looking at their best and enjoying themselves.

In terms of audio quality we record the audio on the cameras and independently with digital audio recorders and hidden microphones. We do not place microphones on the bride and groom as we have found over the years that they may become too aware of the devices.

We try to tell your story from the beginning, so you may, if you wish add in photographs of you both as you grew up, hobbies, special events, family member etc. You may also add photographs or video of your honeymoon if you wish. We encourage our clients to make the video as personal as possible.

Because we try to provide a video that is very personal to each client we do not use our client's weddings as sample DVD's. You may visit our website to view samples but these are only there to show you the diverse nature of the work we do and our style. They do not reflect the personal nature and the quality of the final product. We prefer to meet with you both and discuss your requirements and show you our work directly. It also provides you with an opportunity to ask all the questions that you may have. We feel that it is very important that you would feel confident and comfortable with those who will be helping you on your day.

We hope that the above may answer many of your questions and should you wish to arrange to meet with us please contact us.
