“Time will never stand still and those moments that bring us such joy become memories in an instant.

To capture such a moment and record it forever is truly monumental.” – Joshua Atticks

NATURAL... RELAXED...TIMELESS

Hopefully by this time you've worked your way round my site and you have seen that I have an enormous passion for what I do.

Firstly and most importantly, I am a husband and father. So my girls come first everytime! I work hard to make sure they have everything they need. In return, they are my support system!

I don't consider what I do as work, I am lucky to do something I love and take great pride in.

It's very important to me to get to know my couples so that by the time their wedding comes along I can be confident in shooting as well as mingling with the guests knowing my reportage style isn't interfering with the day's events, but enabling me to capture all those timeless moments of joy.

I have kept it simple, I offer half day or full day coverage, which includes attendance from the bride's home in the morning up to the first dance and a little after!! I am with you for the day, to capture all the magical moments to the smallest details.

Not only do I ensure you have stunning photographs, but I also try to make sure that you enjoy every moment of your day. I am very relaxed and easy going so as to make you and your guests comfortable. The three piece suite is on for every big day, so as to allow me to blend into the crowd. This allows me to capture the candid moments, while you relax and enjoy the day.

SECOND SHOOTER

ENGAGEMENT / PRE-WEDDING PHOTO SESSION

WEDDING ALBUMS

SECOND SHOOTER - €250

Why have a second shooter at your wedding?

- * A second photographer allows the primary photographer to perform at their highest possible level. When I know I have a reliable second shooter covering the additional details discussed before the wedding, I can do what I do best: create beautiful art from the moments of the day.
- * They bring a different perspective - shoot from a different angle and can also have different artistic ideas.
- * The 2nd shooter helps keep me on track, assists and supports me.
- * A second shooter allows me to capture more special moments.
- * Greater coverage of couple in the morning. If there is a distance between where the couple are getting ready, a second shooter can make sure both get full attention on the day.

ENGAGEMENT / PRE-WEDDING SHOOT - €300

Shooting an engagement session with your photographer prior to your wedding day has several benefits:

- * Working together before the wedding day allows us to get to know each other better; to develop a rapport. This can help prevent stress and nervous on your wedding day.
- * Most couples are quite shy when there's a camera around. The more time you spend in front of the camera, the more likely it is that you'll be more open and relaxed during the wedding day shoot.
- * Experiencing how your photographer works, first hand, will help you relax and result in more natural photos.
- * You can do a hair and makeup trial before the engagement session; this will allow you to assess how your hair and makeup will look in your wedding photos!
- * It allows you to use a location that you may not have access to on your wedding day. Some brides and grooms have their heart set on photos in a certain park/location, but due to the logistics of a wedding day, they simply don't have the time to make it there for photos.
