Invitation

6–9 March 2013 Kiel • Germany

Christian-Albrechts-Universität zu Kiel
Main Auditorium • Audimax

www.virology-meeting.de

Dear Colleagues and Friends,

It is my great pleasure to invite you to the 23rd Annual Meeting of the Society for Virology which will be held from 6 to 9 March, 2013 in Kiel, Germany. The Society for Virology is the largest scientific Virology organisation in Europe.

The Annual Meeting of the Society for Virology is the most important conference for Virologists in the German-speaking region and the number of international participants is continuously increasing. Due to the close neighborhood, we invite particularly scientists from Scandinavia to participate.

The meeting venue will be the Main Auditorium of the "Christian-Albrechts-Universität zu Kiel", which is just a short distance away from the fjord of Kiel and its city centre. The conference will bring together young and senior scientists from all over Europe and from all branches of Virology. We are expecting around 1,000 participants in Kiel.

In the symposia, central topics related to viruses and viral infections will be presented and discussed by renowned invited speakers from China, the USA, Canada, Finland, the UK, France, the Netherlands and Germany. We are happy to invite you to submit abstracts for the workshops and poster sessions with 24 major topics on various aspects of the entire field of Virology.

The commercial exhibition will form an integral part of the conference.

We encourage you to support the conference by submitting abstracts of your work and research, and look forward to meeting you in Kiel!

On behalf of the organising committee, we would be pleased if you would follow our invitation.

With kind regards,
Yours sincerely,

Helmut Fickenschner

Prof. Dr. Helmut Fickenschner
Conference Chair

Workshops

Adaptive Immunity
Antiviral Therapy and Resistance
Cell Biology of Virus Infections*
Clinical Virology*
Diagnostic Methods
Emerging Infections
Epidemiology and Public Health
Gene Regulation
Host Cell Factors and Modulation
Immunobiology of Virus Infections*
Infectiology
Innate Immunity
Signal Transduction
Structure and Assembly
Susceptibility to Virus Infections
Trafficking
Tumor Viruses
Vaccines
Viral Pathogenesis
Viral Replication
Viromics and Virus Discovery
Virus Receptors and Entry
Virus Vectors and Gene Therapy*
Zoonoses

* Workshops organised by the respective GfV working group

Abstracts

Abstracts should be submitted according to the workshop topics above. Please submit your abstracts online via www.virology-meeting.de.

Deadline for abstract submission is **9 January, 2013**.
