

frontiers

Community-driven open access journals and research network

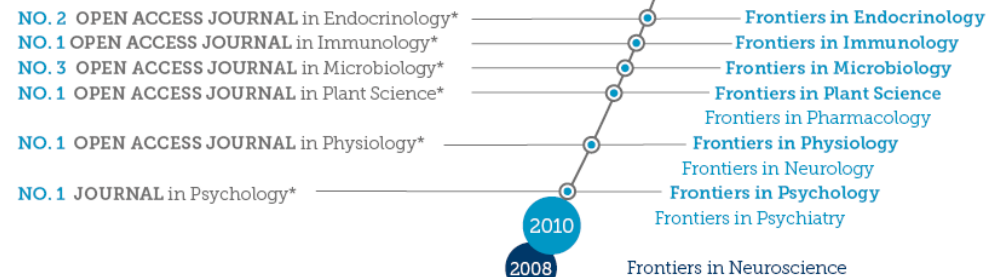

IUIS Meeting, Nairobi, November 2014

Frontiers is the 4th largest OA publisher

Frontiers Journals

Field Chief Editor
Kendall A. Smith

Weill Medical College of Cornell University, USA

ALLOIMMUNITY AND TRANSPLANTATION

Effie Petersdorf

Fred Hutchinson Cancer Research Center and University
of Washington School of Medicine, USA

Antoine Toubert

Université Paris Diderot, INSERM, France

ANTIGEN PRESENTING CELL BIOLOGY

Hermann Wagner

Technical University Muenich (TUM), Germany

B CELL BIOLOGY

Thomas Rothstein

The Feinstein Institute for Medical Research, USA

CHEMOATTRACTANTS

Bernhard Moser

Cardiff University, United Kingdom

HIV and AIDS

Nina Bhardwaj

NY University School of Medicine Langone Medical Center, USA

John B.F. de Wit

The University of New South Wales, Australia

Frank Miedema

University Medical Centre Utrecht, The Netherlands

IMMUNOLOGICAL MEMORY

Susan Swain

University of Massachusetts Medical School, USA

IMMUNOLOGICAL TOLERANCE

Herman Waldmann

University of Oxford, United Kingdom

IMMUNOTHERAPIES AND VACCINES

Jean-Luc Teillaud

Institut National de la Santé et de la Recherche Médicale, France

INFLAMMATION

Charles Dinarello

University of Colorado Health Sciences Center, USA

Pietro Ghezzi

Brighton & Sussex Medical School, United Kingdom

MICROBIAL IMMUNOLOGY

Christine Biron

Brown University, USA

Ian Marriott

University of North Carolina at Charlotte, USA

MOLECULAR INNATE IMMUNITY

Claudia Kemper

King's College London, United Kingdom

MUCOSAL IMMUNITY

Nils Lycke

University of Gothenburg, Sweden

MULTIPLE SCLEROSIS AND NEUROIMMUNOLOGY

Patricia Coyle

Stony Brook University, USA

NUTRITIONAL IMMUNOLOGY

Josep Bassaganya-Riera

Virginia Tech, USA

Willem Van Eden

Utrecht University, Netherlands

NK CELL BIOLOGY

Eric Vivier

Centre d'Immunologie de Marseille-Luminy,
France

PRIMARY IMMUNODEFICIENCIES

Eric Meffre

Yale University School of Medicine, USA

Luigi Notarangelo

Harvard Medical School, USA

T CELL BIOLOGY

Oreste Acuto

University of Oxford, United Kingdom

Ellis Reinherz

Dana-Farber Cancer Institute, USA

TUMOR IMMUNOLOGY

Catherine Sautes-Fridman

Inserm, University Paris Descartes, France

1 million article views and downloads

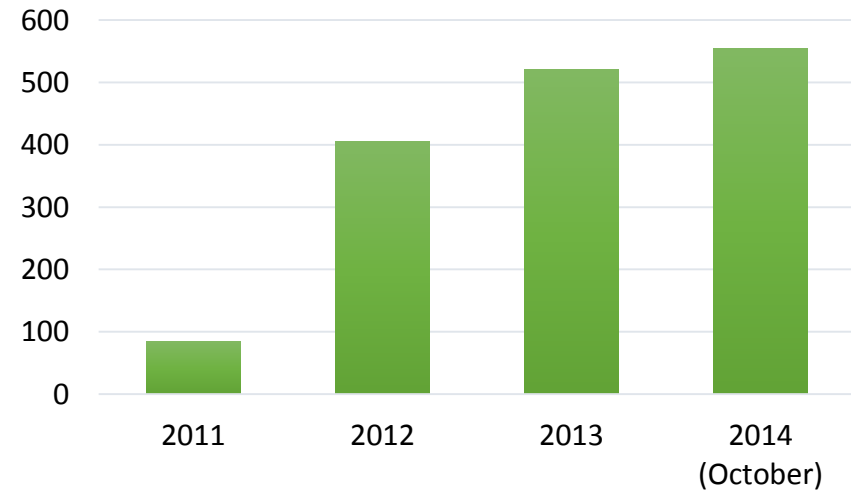

160,000 page views

2,082 editors

1,856 submitted articles

1,568 published articles

Articles published

The IUIS official Journal since its launch in 2010

Frontiers envisages this partnership as an opportunity to serve the Immunology community by being the preferential communication channel used by the IUIS and its member societies

AIM: increase IUIS-Frontiers cooperation

Official communication from IUIS in Frontiers in Immunology

IUIS members could publish official communication in Frontiers in Immunology (position articles, reports from IUIS meetings, official Classifications)

Promotion of critical research Topics

IUIS could endorse and promote participation to particular Research Topics organized to address critical and pressing international issues

Increase Frontiers-IUIS cross-promotion

Frontiers content discoverable on IUIS homepage and IUIS communication highlighted in Frontiers in Immunology

Other ideas to discuss:

Frontiers award for young scientists, members of IUIS

Advantages of publishing in Frontiers

Fast publication

Average 90 days from submission to publication

Open access

Articles are free to read, for greatest visibility

Copyright to authors

No limit to article distribution and re-use

Collaborative peer-review

Designed to be rigorous – yet also collaborative, fair and constructive

Transparent

Editors and reviewers acknowledged by name on published articles

Impact metrics

Advanced metrics track your article's impact

Research network

Our network increases readership for your article

Global spread

Six million monthly page views worldwide

Support

By our Swiss-based editorial team
