ICI Postdoctoral Research Positions

The International Cancer Institute (ICI) is recruiting 2 postdoctoral research scientists with proven research expertise in immunology/cell or molecular biology/oncology.

ICI is a non-governmental organization based in Eldoret, Kenya, with a mission to prevent and cure cancer through pioneering interdisciplinary and multidisciplinary research, to translate new knowledge into better prevention and treatment, and to provide effective and compassionate clinical care that improves the lives of patients with cancer and their families.

We are committed to: (i) excellence in research, (ii) dynamic partnerships among our collaborating centers, laboratories and clinics, (iii) robust outreach and education throughout sub-Saharan Africa, and (iv) engaging in outstanding educational and training programs for future cancer scientists and clinicians.

The successful applicants will be expected to have a clear vision of how their research program will benefit the ICI in terms of translation to diagnostics (biomarkers for specific cancers) or potential therapeutic interventions. Salaries will be commensurate with experience.

Please provide CV and a one page outline statement of proposed research to:
Professor Chite Asirwa, Director International Cancer Institute, Eldoret Kenya:
