

## **IUIS Council Member Description**

### **Personal description by the Candidate for 2019-2022 Council:**

I've been very active for decades in the AAI, and was privileged to serve as its President in 2012-2013.

I subsequently enjoyed joining the IUIS Education Committee, which allowed me to learn about the important work of the IUIS, and to meet many fine colleagues from around the world; I am an active ongoing member of this important committee.

I was honored to be selected to serve on the IUIS Council from 2016-2019. During this term of service, I learned a great deal more about the challenges and opportunities facing our global immunology community, and how IUIS contributes to promoting immunology research and education around the world.

I would like to put this knowledge and experience to work further, in a second term on the Council. It would be an honor and privilege to continue to work with this talented and dedicated group.

**Candidate for 2019-2022 Council: *Gail Bishop***
