EDU Opportunities and Challenges

Opportunities:

- Consolidate the „Africa Immunology School“ concept (2 IUIS courses per year: 2020: Ethiopia, Algeria; 2021: proposal: Tunisia, plus ...), collaborate with FLP
- Continue courses in ALAI region (2020: Argentina, Chile; 2021: proposal: Colombia)
- Expand in FIMSA region (2019: India, 2021: proposal: Iran)
- Collaborate with other organizations (recruitment of faculty): SITC, Bactivac

Challenges:

- Explore funding opportunities (e.g., VW Foundation will not fund additional courses in Sub-Saharan Africa)
- Help to ensure that selected candidates can really participate in AAI/DGfI courses (visa issues etc)
