Meandering loops, slip, drop, and dip stitches, flat knitting, circular knitting– it may be a leisure activity, but knitting a bikini is art to me! The colorway and texture of yarn, combined with the repetition of stitching, may help you with the art of meditation as well! If you're ready to explore your creativity and express your personality, challenge yourself and knit a bikini (it only takes four triangles!). Get your knitting needles out and visit Wool and the Gang!
