**Wool and the Gang Kids** - Wool and the Gang bases their brand on a do-it-yourself model. The small company supplies knitting needles, top quality wool (from the heart of Peru's Andean Highlands), patterns and all the accessories you need for hip, in-style pieces that are easy to make.

This season they have added kids pieces to their collection. The Foxy Roxy scarf seen in the above video is a chunky oversized piece that comes in a variety of colored wool. The scarf is long, wrapable and snuggly and will definitely keep your kids warm this winter... if you finish making it. Most pieces can be bought readymade; though we feel that defeats the purpose.
