Billabong has partnered with fashion brand Wool and the Gang to bring a must-have for next winter: the 'Snood Dogg'. The collaboration includes a ready-to-knit kit with everything you need to start knitting on your own and a ready-made cowl-scarf, both available in forest green color. The pack includes knitting instructions, knitting and sewing needles, yarn, a selection of patterns and a nice Billabong brooch with charms. Wool and the Gang even have online instructional videos in their web-site in case you need extra help. And for those without the patience to knit their own fashion piece, a ready-made cowl-scarf option will also be made available.

Knitting has never been more glamorous, simple and a unifier of fun and pleasure... It's the perfect way to spend flat days in a glamorous way. Knit me if you can!
