KNIT KIT: The DIY Dress

Knitting isn't just for grandmas these days—especially with the do-it-yourself kits from knitwear company **Wool and the Gang**.

Complete with a detailed pattern, pair of wooden needles, top quality balls of baby alpaca yarn and customized materials, this **quarterback dress** kit gives you everything you need to create a subtly sexy knit dress.

Both the perfect activity and the perfect outfit for chilly autumn days, the quarterback dress is conservative in the front, but with a surprising deep scoop in the back.

Paired with tights, jeans or even solo, there's no better addition to your closet than something you can say you made yourself. —**LAUREN DOYLE**
