

Blind Pull Fitting Instructions

1. Take your blind and mark the centre of the bottom bar with pencil & ruler.
2. Using a bradawl or drill, make two pilot holes for the knot holder, taking care not to drill all the way through as the face fabric may become damaged.
3. Thread your blind pull through the knot holder. Tie a knot in the cord to give the desired length.
4. Screw the knot holder in place.
