softRoller™

Smooth and silent soft touch roller blinds

The Domicet softRoller™ component range includes spring mechanisms with new smooth and silent integrated speed reducers, new metal brackets in two sizes, a new mounting rail, nice slim bracket covers in several colors and a new easy to install soft touch tassel.

softRoller™ Spring mechanism with integrated speed reducers - 17 and 20 mm.

softRoller™ Spring mechanisms with integrated speed reducers - 25, 28, 32 and 38 mm.

Optional softRoller™ Limiter.

Domicet softRoller™ Spring mechanisms.

Speed reducer module integrated on the spring mechanism.

Individually designed tube adapters to fit a wide range of tubes.

The new softRoller™ range of mechanisms with integrated speed reducers is very extensive and fits aluminium tubes in sizes 17, 20, 25, 28, 32 and 38mm and steel tubes in 17 and 28mm.

The tubes are standard tubes that are widely used in the business and therefore the product is easy to integrate into most component ranges without having to add any special tubes.

New Domicet softRoller™ components

Slim design bracket covers in several colors.

New brackets in two sizes - for 17-28 and for 32-38 mm.

The softRoller™ system is a reliable and affordable solution for making chain-free, child-safe blinds. The mechanisms are manufactured in-house by Domicet in Finland.

Easy to install soft touch tassel.

Mounting rail for both small and medium sizes.

Minimal light gap.

The softRoller™ spring mechanisms with integrated speed reducer can also be used with the Domicet cassette systems Module, Vario and Multi.

Slim plastic covers for finished look.

New rigid metal brackets.

The softRoller™ spring mechanisms with integrated speed reducer are available in all sizes both as a constant tension version and as a mechanism with stop function.

softRoller™ Spring mechanism with integrated speed reducer.

The Domicet softRoller™ mechanisms can be used by manufacturers of window coverings for residential use or for instance for vehicles as well as by manufacturers of insect screens, screen doors etc.
