

SERIES NEPAL SLATE

Slate Stone Look | Porcelain

Qualis Ceramica Nepal Slate was designed from a slate found within the depths of the 1310 mountains of Nepal, this item represents that country's deep heritage. The rich colors and stunning texture makes "Nepal" a great addition to your space, but this item is more than just a magnificent masterpiece. "Nepal" has a special glaze that is more resistant to slipping than your average porcelain tile. Additionally, that special glaze holds a characteristic that neutralizes bacteria making this item 'anti-bacterial', which is a perfect product for our time.
