1/8"	V3 - Moderate Variation

CLEANING RECOMMENDATIONS
Routine with a non-abrasive/non-acidic, mild and PH neutral cleaner

CHARACTERISTICS	
Glaze	Solid with subtle movement and high color variation
Surface Sheen	Glossy and Matte
Texture	Undulated

Due to the nature of our tile, a certain amount of variation in color, shading, surface and texture are to be expected. This collection is characterized by its shade variation. Some colors in the series have more variation than others. Expect shade variation between the individual field tiles and between field and trim within each color. Due to the shape of the pieces and the nature of production, this is especially true for variation between field and trims. Trim pieces like quarter rounds, finishing edges and other moldings may have more glaze pooling and different pooling effects than other pieces. Expect variation within each run, and from production to production. IT IS IMPORTANT TO BLEND TILE WITHIN EACH CARTON AND FROM MULTIPLE CARTONS DURING INSTALLATION. This is best achieved by laying out the material prior to installation.
