

WORLD TILE

SERIES MILAN

Stone Look | | Porcelain

Qualis Ceramica Milan is a Frost Resistant, Glazed Porcelain, 6x16 that was inspired by the classic, natural tones, and textures of stone facades found in Milan Italy. It is excellent for wet areas and never has to be sealed! Starting from its development phase, Milan was designed for universal use and for this reason its design required certain specific features. Chromatism, structure, shape, and style became essential characteristics needed to achieve a versatile product ideal for endless applications residentially and commercially. Milan has a wealth of textures and colors, nine to be exact, that represent the classic synthesis of a project that highlights the allure of stone, for a natural, aged

style that also looks great in contemporary homes.
